Anthropology is a notoriously polysemous term. Within a continental European academic context, it is usually employed in the sense of philosophical anthropology, and mainly concerned with exploring concepts of a universal human nature. By contrast, Anglo-American scholarship almost exclusively associates anthropology with the investigation of cultural and ethnic differences (cultural anthropology). How these two main traditions (and their 'derivations' such as literary anthropology, historical anthropology, ethnology, ethnography, intercultural studies) relate to each other is a matter of debate. Both, however, have their roots in the path-breaking changes that occurred within sixteenth and early seventeenth-century culture and scientific discourse. It was in fact during this period that the term anthropology first acquired the meanings on which its current usage is based. The Renaissance did not 'invent' the human. But the period that gave rise to 'humanism' witnessed an unprecedented diversification of the concept that was at its very core. The question of what defines the human became increasingly contested as new developments like the emergence of the natural sciences, religious pluralisation, as well as colonial expansion, were undermining old certainties. The proliferation of doctrines of the human in the early modern age bears out the assumption that anthropology is a discipline of crisis, seeking to establish sets of common

values and discursive norms in situations when authority finds itself under pressure.

Die Erforschung des historischen und systematischen Kontextes von Kants Philosophie weist bis auf den heutigen Tag signifikante Lücken auf. Dies gilt umso mehr für unser Verständnis der Bedeutung der gegenüber Kants Philosophie erhobenen Einwände und Kritikpunkte sowohl für die verschiedenen Entwicklungsphasen seiner Philosophie wie für ihre Rezeption und Darstellung in späteren Jahrhunderten. Die im vorliegenden Band versammelten Beiträge wollen einen Beitrag zur Schließung dieser Lücken leisten. Sie gehen auf Vorträge zurück, die auf dem VII. Multilateralen Kant-Kolloquium zum Thema 'Kant und seine Kritiker - Kant and his critics - Kant et ses critiques' gehalten worden sind, das vom 28.-30. April 2017 an der Martin-Luther-Universität Halle-Wittenberg

stattfand.*****There are still significant gaps in the study of the historical and systematic contexts of Kant's philosophy. This is true even more of our understanding of the significance of the objections and criticisms levelled at Kant's philosophy and of the development of his philosophy and its reception and depiction in later centuries. The essays in this volume seek to close these gaps. They are based on the papers given at the 7th multilateral Kant Colloquium with the theme 'Kant und seine Kritiker - Kant and

his critics - Kant et ses critiques' which took place from 28th-30th April 2017 at the Martin-Luther-University, Halle-Wittenberg.

Die Frage, was Begabung sei, ist ebenso so alt und aktuell, wie Schule und Unterricht, Lernen und Lehren im öffentlichen Bewusstsein stehen und bildungspolitisch diskutiert werden. Dabei stellt sich die Frage, was denn eigentlich Begabung im Allgemeinen und musikalische Begabung im Besonderen ausmache und woran sie zu erkennen sei. Auf dem Wege der Beantwortung sollen verschiedene historische Positionen und wissenschaftliche Disziplinen, die sich mit dem Phänomen der Begabung befassen, zu Wort kommen. Wissenschaftlern und Studierenden wie allen an Begabungsfragen Interessierten wird damit ein Überblick über den Diskussions- und Forschungsstand der musikalischen Begabungsforschung gegeben, so dass auch Eltern und Erzieher eine aktuelle fachliche Orientierung in der Vielfalt der verschiedenen Aspekte und Erkenntnisse erhalten. Aus dem Inhalt: Grundlagen: Musikalität, Intelligenz und Persönlichkeit - Hochbegabung - Zielgerichtete Übung und Begabung - Musikalische Begabungstests Begabung und Entwicklung: Erkennen und Fördern musikalischer Begabung in der Kindheit - Musikalische Begabung und Talent in der Lebenszeit Perspektive - Begabungsforschung im Sport Biologie der Begabung: Warum wir musikalisch sind: Antworten aus der Evolutionsbiologie - Hormonelle Einflüsse auf die Begabungsentwicklung - Neurobiologie der Begabung - Neurokognitive Aspekte musikalischer

"Inframince", a term coined by Marcel Duchamp, refers to ephemeral, ultra-thin, and undecidable phenomena - such as the warmth that remains on a chair after a person gets up. In this book, "inframince" is taken to signify forms of transdisciplinarity in contemporary art. Authors and visual artists capture in text and image fleeting moments in which artistic, theoretical, scientific, or everyday cultural elements meet, change, or merge with one another. Numerous examples of artistic and teaching practice within the discipline of

TransArts at the University of Applied Arts Vienna vividly reveal how these manifold transgressions can be rendered productive.

Der Band enthält 15 Artikel zur Frage nach postmodernen Schreibweisen in der deutschsprachigen Literatur. Anders als viele eher theoretisierende Beiträge auf diesem Gebiet besteht die Mehrzahl der hier versammelten Aufsätze aus konkreten Textanalysen. Es gibt Beiträge zur bundesdeutschen Literatur aus den letzten vier Jahrzehnten, zur Literatur der DDR, der Schweiz und in Österreich,

zu feministischer und interkultureller Literatur. Die Leitfrage ist fast allen Beiträgen lautet: Gibt es ein postmodernes Schreiben, das ein kritisches, politisches und ethisches Engagement nicht ausschließt und das an Vorstellungen von subjektiver Authentizität festhält?

This volume offers a broad reflection on women's engagement in ritual and liturgy. The Central Theme section opens with a multi-faith dialogue on women and ritual. Denise J.J. Dijk discusses the Feminist Liturgical Movement in the Netherlands and the US. Teresa Berger explores the implications of the ancient axiom "lex orandi, lex credendi" for women's liturgical practice. Brigitte Enzner-Probst considers the role of the body in worship. Annette Esser encourages dynamic dialogue between women artists and women engaged in liturgy. Gabriella Lettini examines the concept of syncretism in the light of the relationship between gospel and culture. The Forum focuses on translation: Judith Hartenstein and Silke Petersen highlight the problems of inclusive-language translation of St John's Gospel, while Caroline Vander Stichele presents recent discussions of the Dutch translation of JHWH. In Women's Traditions, Rosine Lambin traces the adoption of the veiling of women in the early church. Bettina Kratz-Ritter discusses the decline and modern renewal of ancient Jewish women's birth rites intended to protect the newborn child. From the countries, Angela Berlis tracks the evolution of the German Old Catholic 'Women's Sunday' service from 1920 to the present. Charlotte Methuen reflects on issues of power and authority raised by women's presidency at the Eucharist. Finally, the Book Market lists recently-published

works as well as reviews.

This volume discusses a variety of
aspects of cross-curricularity in language
learning and teaching. It highlights the
multidimensional character of language
classes conducted at different
educational levels, from pre-school to
the university level, and discusses
several important issues from a
theoretical perspective, providing certain
practical solutions and implications to
the enumerated problems. The material
of the book is divided into four parts,
essentially reflecting the main areas of
interest here. These parts deal with such
notions as language learning and
teaching; media in foreign language
didactics; art and literature in language
education; and (inter-)culturality and
cross-curricularity in language learning
and teaching. The book will be
particularly useful to teacher-
practitioners and scholars interested in
various forms of integrating the content
of different school subjects in language
education.

The aim of this volume is to assess Friedrich Schleiermacher's contribution to the theory of translation two centuries after his address "On the Different Methods of Translating" at the Academy of Sciences in Berlin, and to explore its potential for generating future innovative work. For the first time this classic text forms the object of a focused, interdisciplinary approach. Scholars of philosophy and translation,

working in English, French and German, provide a close reading of Schleiermacher's lecture and combine their efforts in order to highlight the fundamental role translation plays in his hermeneutic thinking and the importance of hermeneutics for his theorisation of translation, within the historical and literary context of Romanticism. The various contributions revisit key concepts in Schleiermacher's thought, in particular the famous metaphor of movement; examine the relation between his theoretical writings and his practice as translator of Plato, unearthing some of their philosophical and linguistic implications; discuss Schleiermacher's reception in Germany and abroad; and assess the relevance of his ideas in the beginning of the 21st century as well as their potential to inspire further research in translation and interpreting.

Increasingly, the virtual became reality by a hybridization of the world as we knew it: the process that went on in recent years is one of a technically assisted hybridization of both space and self, the »old« world is becoming virtualized and functionalized to a degree never experienced before. For the first time in human history, we have reached a threshold where we have not only to re-assert but to redefine ourselves, as regards our fundamental terms of understanding what world means for us, our base of existence and now an assemblage of mixed realities; and connected, what being human means.

The historical avant-gardes defined themselves largely in terms of their

relationship to various versions of realism. At first glance modernism primarily seems to take a counter-position against realism, yet a closer investigation reveals that these relations

are more complex. This book is dedicated to the links between realism, modernism and the avant-garde in their international context from the late 19th century up to the present day.
