 The Review Body's remit for 2012/13 continues to be constrained by the UK Government's and Devolved Administrations' public pay sector policies. The remit is narrowed to consideration of pay recommendations for NHS Agenda for

Change (AfC) staff earning £21,000 or less and any cases presented regarding high cost area supplements (HCAS) and recruitment and retention premia (RRP). An uplift of £250 is recommended for AfC staff earning £21,000 or less. The Body also comments on general workforce issues in the NHS.

Probably the biggest - and potentially most risky - undertaking for any Human Resources or payroll professional is the selection of new software. Additionally, it is almost inevitable that they will be involved with it at some point in their career. The litany of failures in this area has been alarmingly high, from selecting the wrong systems in the first place all the way through to ineffective implementation; all of this against a heavy cost to the organisation in both financial terms and lost opportunities. Denis Barnard is a consultant specialising in the selection of HR & payroll systems, and other HRIS, and is acknowledged as one of the UK's leading experts in the field. Drawing on many years of experience, he gives crucial insight to the actions needed to minimise the risks inherent to this type of project, as well as a step-by-step blueprint of how the right result can be achieved. Written in a style aimed to demystify the relatively unknown, this is a "must have" for the practitioner's bookshelf.
