SARIAH PARKER

Medicare and Medicaid Home Health Benefits Taylor & Francis

This book examines the current law on the employment status of ministers of religion together with religious workers and volunteers and suggests reforms in this area of the law to meet the need for ministers to be given a degree of employment protection. It also considers the constant theme in Christian history that the clergy should not be subject to the ordinary courts and asks whether this is justified with the growth of areas such as employment law. The work questions whether it is possible to arrive at a satisfactory definition of who is a minister of religion and, along with this, who would be the employer of the minister if there was a contract of employment. Taking a comparative perspective, it evaluates the case law on the employment status of Christian and non-Christian clergy and assesses whether this shows any coherent theme or line of development. The work also considers the issue of ministerial employment status against the background of the

autonomy of churches and other religious bodies from the State, together with their ecclesiology. The book will be of interest to academics and researchers working in the areas of law and religion, employment law and religious studies, together with both legal practitioners and human resources practitioners in these areas.

Seventy-five percent of Americans claim religious affiliation, which can impact their taxpaying responsibilities. In this illuminating book, Samuel D. Brunson describes the many problems and breakdowns that can occur when tax meets religion in the United States, and shows how the US government has too often responded to these issues in an unprincipled, ad hoc manner. God and the IRS offers a better framework to understand tax and religion. It should be read by scholars of religion and the law, policymakers, and individuals interested in understanding the implications of taxation on their religious practices.

Summons: In the Case of Attorney General v. Church Trustees (How Trustees Actually Contribute to Church Crimes) This Book Contains: • The essentials to church bylaws, • The legal definition & function of church trustees, • How to get 100% participation of church members, • The Job Description of the pastor, • The legal way to dismiss a member, • The 10 most common church lawsuits, and • much, much more! Prior to the sex-abuse scandal of the Catholic Church in the U.S., a lawsuit against a church was almost unheard of. Now they are one of the fastest growing areas of civil and personal lawsuits. Although no church is immune to accusations, there are many reasonable and practical ways to reduce the possibilities. This book deals primarily with church bylaws, which are incredibly insufficient and provide no meaningful protection from disgruntled members or even injured visitors. With properly prepared bylaws, church trustees no longer need to cover-up crimes of the church, but can actually avoid most of them. This book tells how.

On his second day as association minister for the United Church of Christ, David McMahill received three phone calls from lay leaders who were looking for resources on "how to evaluate our minister." He knew of several churches in which a poorly constructed process for evaluating the ministers had spun out of control, however, and had gradually come to believe it is probably better for a church not to attempt an evaluation process at all than to do one carelessly or to naively use a design intended for a secular organization. Based on the needs he saw, McMahill began to work with numerous congregations looking for ways to review both leaders and ministries and developed the feedback/reflection process he lays out in this book. Based on sound principles of effective communication, this simple system of asking for descriptive feedback about various aspects of a congregation's life together takes into account the specific setting and the unique

relationship between minister and congregation.

The manual provides a rationale for chaplaincy by using Winnifred Sullivan's three categories of religious secularism, irreligious secularism, and areligious secularism to outline the essential and transforming value of spiritual care services (preface, introduction). The manual provides a history of justice initiatives and chaplaincy services in a Canadian context (chapters one and two). The manual provides a rationale for spiritual care-giver training by showing how chaplaincy courses at a university level can build on the competencies of leadership and core knowledge that many ministers, rabbis, imams, priests, nuns, and other faith group representatives have. Emotional intelligence, professional practice skills, and diversity are additional competencies needed for spiritual care-givers to become effective prison chaplains (chapters three to six). Six principles shape the content of this book: (1) integration of chaplaincy into corrections (chapters three to six) (2) understanding of prison dynamics (chapters seven to ten), (3) complementary use of sociology and psychology (chapters eleven to fourteen), (4) provision of faith formation, rites and rituals, programs, pastoral care, and a ministry of presence (chapters fifteen to eighteen), (5) ecumenical and multi-faith religious accommodation (chapters nineteen to twenty-one) and (6) professional development (chapters twenty-four and twenty-five). The manual concludes with a statement of best practices by Dr. Thomas Beckner, long-time chaplaincy educator (Correctional Chaplains: Keepers of the Cloak, p. 24). "Chaplains are to have highly polished counselling skills, strong management and facilitation abilities, a working knowledge of various faith group requirements . . . and a strong commitment to serve all residents of the institution regardless of their faith identity or lack thereof."

This book presents six ground-breaking Master's degree dissertations that have been done in the area of Baptist and Anabaptist Studies through the International Baptist Theological Seminary (IBTS), Prague. The focus is continental Europe, with a particular emphasis on eastern Europe. The material is largely culled from primary sources. The topics covered include the Theology of Baptist Believers in Bulgaria, 1920-1939, the Pentecostal Dilemma in the Finnish Baptist Union, 1930-1953, Moldovan Baptists, 1940-1965, the State and the Baptist Churches in the USSR, 1960-1980, Baptist Mission Efforts in Bosnia-Herzegovina, and the Life and Convictions of Hans Meier (1902-1992). Most of these topics have never been covered in English before. In the case of the studies of former Communist countries, this kind of research has only been possible in the last decade.
