A secret worth killing for. A woman with no past. An act of treason that changed America. #1 bestselling author Brad Meltzer returns with THE HOUSE OF SECRETS When Hazel Nash was six years old, her father taught her: mysteries need to be solved. He should know. Hazel's father is Jack Nash, the host of America's favorite conspiracy TV show, The House of Secrets. Even as a child, she loved hearing her dad's tall tales, especially the one about a leather book belonging to Benedict Arnold that was hidden in a corpse. Now, years later, Hazel wakes up in the hospital and remembers nothing, not even her own name. She's told she's been in a car accident that killed her father and injured her brother. But she can't remember any of it, because of her own traumatic brain injury. Then a man from the FBI shows up, asking questions about her dad-and about his connection to the corpse of a man found with an object stuffed into his chest: a priceless book that belonged to Benedict Arnold. Back at her house, Hazel finds guns that she doesn't remember owning. On her forehead, she sees scars from fights she can't recall. Most important, the more Hazel digs, the less she likes the person she seems to have been. Trying to put together the puzzle pieces of her past and present, Hazel Nash needs to figure out who killed this man-and how the

book wound up in his chest. The answer will tell her the truth about her father, what he was really doing for the government-and who Hazel really is. Mysteries need to be solved. Especially the ones about yourself.

Plant-parasitic nematodes devastate crops worldwide, in turn impacting international trade, social and economic development. Effective control of nematodes is essential for crop protection, and requires an understanding of nematode biology, taxonomy, population dynamics and sampling methods. Providing a broad introduction to nematodes as plant parasites, this book begins by describing nematodes by genera, and builds on this foundation to detail nematode biology and pest management, including biological and chemical control. Chapters are authored by international experts and enhanced by extensive illustrations and focus boxes. Fully updated throughout, this new edition is an essential resource for postgraduate students, extension officers, researchers and crop protection scientists.

Lonesome Lily turned Scandalous Siren Miss Lillian Hargrove has lived much of her life alone in a gilded cage, longing for love and companionship. When an artist offers her pretty promises and begs her to pose for a scandalous portrait, Lily doesn't hesitate . . . until the lying libertine leaves her in disgrace. With the painting now public, Lily has no choice but to turn to the one man who might save her from ruin. Highland Devil turned Halfhearted Duke The Duke of Warnick loathes all things English, none more so than the aristocracy. It does not matter that the imposing Scotsman has inherited one of the most venerable dukedoms in Britain—he wants nothing to do with it, especially when he discovers that the unwanted title comes with a troublesome ward, one who is far too old and far too beautiful to be his problem. Tartan Comes to Town Warnick arrives in London with a single goal: get the chit married and see her become someone else's problem, then return to a normal, quiet life in Scotland. It's the perfect plan, until Lily declares she'll only marry for love . . . and the Scot finds that there is one thing in England he likes far too much . . .

"Drought" is a joyous celebration of life and human commitment. Its hero is an ex-student, ex-soldier and ex-bandit, who decides to transmigrate to one of the outer islands of Indonesia in order to start life again as a farmer. He almost fails, but so in so doing he is involved with a wonderful range of inspired madmen - bureaucrats, bandits, psychiatrists, religious teachers, and the beautiful woman known simply as the V.I.P. The outsiders humorously combine to question the normality of conventional society. Iwan Simatupang's earlier novel, "The Pilgrim," has been hailed as the first really modern Indonesian novel and the beginning of a completely new path in Indonesian writing. "Drought" shows Simatupang writing at the height of his powers and is a lyrical testimony to the strength - and the unpredictability - of the human character.

This first English edition of the satirical Indonesian novel (1991) affords an overview of the Sukarno and Suharto eras and insight into the postcolonial condition This scathingly satirical and hilarious novel, first published in Indonesia in 1991, affords both a blithely irreverent overview of Indonesian history in the Sukarno and Suharto eras, and brilliant insights into the postcolonial condition. Mangunwijaya (1929-2001) was a well-known Indonesian political activist and writer, as well as a Catholic priest, engineer, and architect. Framed by the world of ritual shadow plays - the realm of witches like Durga and the goddess Umayi - Mangunwijaya's novel gives an unblinking but remarkably compassionate account of people caught up in the great nationalist maelstrom of Indonesia's recent history.

When a reluctant king meets a beautiful but innocent diplomat, their passionate alliance makes for a scorching hot holiday season. As King of Tabat, Sheikh Salim Al-Noury would rather abdicate than taint his realm with his dark secrets. Until one exquisitely beautiful diplomat is hired to persuade him to reconsider the throne . . . Christmas means heartbreak to Charlotte McQuillan, so working abroad over the festive season is the perfect getaway. But Salim proves to be her most challenging client yet as his rugged masculinity awakens untouched Charlotte to unimaginable pleasures! Soon Salim accepts that he alone can bear the weight of the crown. And his first proclamation will be to make Charlotte his Christmas queen!

A Christmas Bride for the King Grand Central Publishing

A central aspect of teachers' professional knowledge and competence is the ability to assess students' achievements adequately. Giving grades and marks is one prototypical task in this

context. Besides giving grades, assessments for school placements or tracking decisions belong to these tasks. Relevant students' characteristics which influence teachers' assessments do not only involve academic achievement but also students' responses to different task demands as well as non-academic characteristics such as learning motivation or school anxiety. Closely associated with the investigation of teachers' assessment competences and, more specifically, the investigation of conditions associated with high quality of assessments is the development and evaluation of teacher training programs to improve professional competences. In recent years, there has been considerable progress in the domain of professional teacher training; however, only a very limited number of studies are dedicated to the question to what extent training programs might offer valuable approaches to improve the quality of assessments and to implement high assessment competences. Another important field which is closely related to teachers' competences concerns the question how teachers' professional development is linked to students' learning and learning outcomes. In recent years, the societal demand for evidence that teachers' professional development will result in improved student learning outcomes is increasing. This volume brings together questions on assessment, training, and learning in the professional development of teachers which have not been fully discussed yet. The identification of these research gaps was the reason for dedicating a series of lectures given at the University of Luxembourg 2012 to the topic of professionalization of teachers in these domains. Therefore, this book contains contributions from outstanding international scholars in different academic disciplines to present ideas about open research questions concerning the domains of assessment, training, and learning in the professional development of teachers.

Teaching English as a Foreign Language in Indonesia faces many obstacles. Firstly, English is not day to day used so the students have difficulty to practice it. They only use it in the limited time classroom, so teachers have difficulty to make authentic situation for the students to practice the language outside the class. Second obstacle is the students' bad experiences during their previous schooling in learning English. The students come from different school background; some remote school may not have good teachers, especially in teaching English. Even some students have bad impression that make them hate English. The last thing is teachers still have problem to access updated book, journals, etc. to help them teach English better. This book is to help both teachers and students to enjoy the process of teaching and learning. Materials given are mostly authentic from internet or medication information. The authenticity of the material can give additional motivation for the students, so they can apply it as day to day conversation in the nursing settings or in their future workplace. The material in this book also can become references in doing translation, social and professional conversation, journal reading, scientific writing, and presentation ability.
