 Aurobindo's ideology and principles embody divinity; ethics; spontaneity and knowledge. He was an accomplished teacher; a profound scholar; writer and a spiritual Guru. For him nationalism was a holy offering to the motherland when viewed from the divine perspective. Aurobindo also played a very prominent role as a revolutionary. His contribution to politics cannot be ignored. Although his writings are philosophical in nature they also provide valuable social and cultural analysis. He was the one who suggested that 'Poorna Swaraj'; should the main aim behind the revolutionary movement against the British. Nationalists were aroused with the inspiration to seize power from the foreign masters. Aurobindo was an eminent educationist also. He valued greatly the inherent qualities and talents in each child. He felt that the role of education should be to nurture and enhance these God-given qualities. This book throws light on Sri Aurobindo Ghosh Life. This is a biographical sketch for readers.

"The Drillmaster of Valley Forge-Baron Von Steuben-correctly noted in his "Blue Book" how physical conditioning and health (which he found woefully missing when he joined Washington's camp) would always be directly linked to individual and unit discipline, courage in the fight, and victory on the battlefield. That remains true today. Even an amateur historian, choosing any study on the performance of units in combat, quickly discovers how the levels of conditioning and physical performance of Soldiers is directly proportional to success or failure in the field. In this monograph, Dr. Whitfield "Chip" East provides a pragmatic history of physical readiness training in our Army. He tells us we initially mirrored the professional Armies of Europe as they prepared their forces for war on the continent. Then he introduces us to some master trainers, and shows us how they initiated an American brand of physical conditioning when our forces were found lacking in the early wars of the last century. Finally, he shows us how we have and must incorporate science (even when there exists considerable debate!) to contribute to what we do-and how we do it-in shaping today's Army. Dr. East provides the history, the analysis, and the pragmatism, and all of it is geared to understanding how our Army has and must train Soldiers for the physical demands of combat. Our culture is becoming increasingly "unfit," due to poor nutrition, a lack of adequate and formal exercise, and too much technology. Still, the Soldiers who come to our Army from our society will be asked to fight in increasingly complex and demanding conflicts, and they must be prepared through new, unique, and scientifically based techniques. So while Dr. East's monograph is a fascinating history, it is also a required call for all leaders to better understand the science and the art of physical preparation for the battlefield. It was and is important for us to get this area of training right, because getting it right means a better chance for success in combat.

**Drama Teachers' Association of California. Bulletin** Vintage Master prose stylist Julian Barnes presents a collection of stories whose characters are growing old and facing the end of their lives -- some with bitterness, some with resignation and others with raging defiance. "Life is just a premature reaction to death," was what Viv's husband used to say. Once her lover and friend, he is now Viv's semi-helpless charge, who is daily sinking ever deeper into dementia. In "Appetite," Viv has found a way to reach her husband: by reading aloud snippets of recipe books until he calls out indelible -- and sometimes unfortunate -- scenes locked away in his brain. In "The Things You Know," two elderly friends enjoy their monthly breakfast meetings that neither would ever think of missing. Of course, all they really have in common is a fondness for flat suede shoes and a propensity for thinking spiteful, unspoken thoughts about one another's dead husbands. "The Fruit Cage" is narrated by a middle-aged man whose

seemingly orderly upbringing is harrowingly undone when he discovers that his parents' old age is not necessarily a time of serenity but actually an age of aroused, perhaps violent, passions. In these stories, Julian Barnes displays the erudition, wit and uncanny insight into the human mind that mark him as one of today's great writers, one whose intellect and humour never obscure a genuine affection for his characters.

Grade Level: 5-12 Reading Level: 3-4 Learning to eat right is one of life's most essential lessons. After all, we are what we eat... our choices directly affect our health and well-being. Unfortunately, making intelligent choices is not always easy. From an early age, kids are enticed into a life of poor nutrition. There are thousands of fast-food restaurants in American, many offering toys and prizes with every meal. Fad diets fill the pages of teen magazines, television commercials feature sugar-filled breakfast cereals, and movie stars tell us which cola to drink. This easy-to-use book is a great way to provide students with up-to-date information on the principles of good nutrition while

simultaneously improving their reading comprehension skills. Relevant, high-interest activities follow each reading selection and challenge students to: read for details, make inferences, find the main idea, find facts, summarize data, build vocabulary, draw conclusions, restate information, and make decisions.

A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (Time). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

Have you ever wondered why diets just don't seem to work? In *Yuktahaar*, award-winning nutritionist Munmun Ganeriwal argues that the reason why none of the diets in the past have seemed to work is because they focused on the wrong cause—you, the reader. While we may continue to have a fling with low carb, vegan, low fat diets and everything in between but a long-lasting solution may never be found if we do not shift our focus from 'you' to 'them'-the human-gut microbiome connection. Nearly all chronic issues are rooted in an imbalanced microbiome. Disruption in the balance of your belly-based microscopic community not only causes weight gain and increases the risk of chronic diseases but also impacts our mood, behavior, happiness, and a general sense of well-being. In this book, Munmun gives an actionable 10-week holistic program that encourages a gut balancing lifestyle, consisting of season-wise meal plans, recipes, exercise routines, sleep hygiene tips, and yoga practice. The book also charts actress Taapsee Pannu's phenomenal physical transformation while working with Munmun. With a focus on combining traditional, regional Indian foods with evidence-backed tips, *Yuktahaar* will transform your relationship with food and rebalance your gut for a leaner and healthier you.

Shortlisted for the 2016 Man Booker Prize and chosen by David

Sedaris as his recommended book for his Fall 2016 tour. So here we are. My name was Eileen Dunlop. Now you know me. I was twenty-four years old then, and had a job that paid fifty-seven dollars a week as a kind of secretary at a private juvenile correctional facility for teenage boys. I think of it now as what it really was for all intents and purposes—a prison for boys. I will call it Moorehead. Delvin Moorehead was a terrible landlord I had years later, and so to use his name for such a place feels appropriate. In a week, I would run away from home and never go back. This is the story of how I disappeared. The Christmas season offers little cheer for Eileen Dunlop, an unassuming yet disturbed young woman trapped between her role as her alcoholic father's caretaker in a home whose squalor is the talk of the neighborhood and a day job as a secretary at the boys' prison, filled with its own quotidian horrors. Consumed by resentment and self-loathing, Eileen tempers her dreary days with perverse fantasies and dreams of escaping to the big city. In the meantime, she fills her nights and weekends with shoplifting, stalking a buff prison guard named Randy, and cleaning up her increasingly deranged father's messes. When the bright, beautiful, and cheery Rebecca Saint John arrives on the scene as the new counselor at Moorehead, Eileen is enchanted and proves unable to resist what appears at first to be a miraculously budding friendship. In a Hitchcockian twist, her affection for Rebecca ultimately pulls her into complicity in a crime that surpasses her wildest imaginings. Played out against the snowy landscape of coastal New England in the days leading up to Christmas, young Eileen's story is told from the gimlet-eyed perspective of the now much older narrator. Creepy, mesmerizing, and sublimely funny, in the tradition of Shirley Jackson and early Vladimir Nabokov, this powerful debut novel enthralls and shocks, and introduces one of the most original new voices in contemporary literature.
