OSBORNE GLASS

The Saturday Review of Politics, Literature, Science and Art
 Springer

This book tackles the latest research trends in technology acceptance models and theories. It presents high-quality empirical and review studies focusing on the main theoretical models and their applications across various technologies and contexts. It also provides insights into the theoretical and practical aspects of different technological innovations that assist decision-makers in formulating the required policies and procedures for adopting a specific technology.

Energy and Infrastructure Management in Post Covid-19 Era
 Routledge

The book "Advances in Information and Communication Networks - Proceedings of the 2022 Future of Information and Communication Conference (FICC)" aims in presenting the latest research advances, sharing expert knowledge and exchanging ideas with the common goal of shaping the future of Information

and Communication. The conference attracted 402 submissions, of which, 131 submissions (including six poster papers) have been selected through a double-blind review process by an international panel of expert referees. This book discusses on aspects of Communication, Data Science, Ambient Intelligence, Networking, Computing, Security and Internet of Things, from classical to intelligent scope. The intention is to help academic pioneering researchers, scientists, industrial engineers, and students become familiar with and stay abreast of the ever-changing technology surrounding their industry. We hope that readers find the volume interesting and valuable; it gathers chapters addressing state-of-the-art intelligent methods and techniques for solving real world problems along with a vision of the future research

Fiscal Politics IGI Global

This book gathers papers addressing state-of-the-art research in all areas of information and communication technologies and their applications in intelligent computing, cloud storage, data mining and software analysis. It presents the outcomes of the Fourth International Conference on Information and

Communication Technology for Intelligent Systems, which was held in Ahmedabad, India. Divided into two volumes, the book discusses the fundamentals of various data analysis techniques and algorithms, making it a valuable resource for researchers and practitioners alike.

Handbook of Research on Internationalization of Entrepreneurial Innovation in the Global Economy International Monetary Fund
Virtual Work and Human Interaction Research uses humanistic and social scientific inquiry to explore how humans communicate, behave, and navigate in their new virtual work spaces, providing scholars and practitioners an opportunity to study virtual work from quantitative and qualitative research approaches. The book explores informal and formal communication, emotional, psychological, and physical labor, rewarding and punishing virtual work behaviors, group decision-making, socializing, and organizational change in a workplace without the physical and nonverbal cues that are taken for granted in traditional face-to-face work arrangements.

Destination Dissertation IGI Global

Globalization demands the creation of new business approaches to achieve high levels of competitiveness. Cultural differences factor into policies as companies expand their businesses in different countries and seek to collaborate with international entrepreneurs. The *Handbook of Research on Internationalization of Entrepreneurial Innovation in the Global Economy* brings together research on international business, entrepreneurship, and innovation in order to present a comprehensive publication for business professionals. This volume is an essential reference source for practitioners, academicians, researchers and upper-level students interested in learning about internationalization and innovation in a global market.

ICT Unbounded, Social Impact of Bright ICT Adoption

Springer Nature

This book gathers high-quality papers presented at the Fifth International Conference on Smart Trends in Computing and Communications (SmartCom 2021), organized by Global Knowledge Research Foundation (GR Foundation) from March 2 – 3, 2021. It covers the state of the art and emerging topics in information, computer communications, and effective strategies for their use in engineering and managerial applications. It also explores and discusses the latest technological advances in, and future directions for, information and knowledge computing and its applications.

Recent Advances in Technology Acceptance Models and Theories World Bank Publications

In the next few years, it is expected that most businesses will have transitioned to the use of electronic commerce technologies, namely e-commerce. This acceleration in the acceptance of e-commerce not only changes the face of business and retail, but also has introduced new, adaptive business models. The experience of consumers in online shopping and the popularity of the digital marketplace have changed the way businesses must meet the needs of consumers. To stay relevant, businesses must develop new techniques and strategies to remain competitive in a changing commercial atmosphere. The way in which e-commerce is being implemented, the business models that have been developed, and the applications including the benefits and challenges to e-commerce must be discussed to understand modern business. The *Research Anthology on E-Commerce Adoption, Models, and Applications for Modern Business* discusses the best practices, latest strategies, and newest methods for implementing and using e-commerce in

modern businesses. This includes not only a view of how business models have changed and what business models have emerged, but also provides a focus on how consumers have changed in terms of their needs, their online behavior, and their use of e-commerce services. Topics including e-business, e-services, mobile commerce, usability models, website development, brand management and marketing, and online shopping will be explored in detail. This book is ideally intended for business managers, e-commerce managers, marketers, advertisers, brand managers, executives, IT consultants, practitioners, researchers, academicians, and students interested in how e-commerce is impacting modern business models.

Caring for the Vulnerable RED'SHINE Publication. Pvt. Ltd.

With technology creating a more competitive market, the global economy has been continually evolving in recent years. These technological developments have drastically changed the ways organizations manage their resources, as they are constantly seeking innovative methods to implement new systems. Because of this, there is an urgent need for empirical research that studies advancing theories and applications that organizations can use to successfully handle information and supplies. *Novel Theories and Applications of Global Information Resource Management* is a pivotal reference source that provides vital research on developing practices for businesses to effectively manage their assets on a global scale. While highlighting topics such as enterprise systems, library management, and information security, this publication explores the implementation of technological innovation into business techniques as well as the methods of controlling information in a contemporary society. This book is ideally designed for brokers, accountants, marketers, researchers, data scientists, financiers, managers, and academicians seeking current research on global resource management.

Annual Department of Defense Bibliography of Logistics Studies and Related Documents IGI Global

This publication tries to sketch present scenario on food, agriculture and humanity as its first volume. This book is intended to make attempt to update present scenario with reference to past in food agriculture and humanity and identify challenges, followed by opportunities to bring changes in food habits and preferences, technology, and proper implementation of programmes and of proper utilization of a natural resources. Mention has been made of food and agriculture policies and developments improved agriculture challenges and opportunities and to address them appropriately. Note: T&F does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka. This title is co-published with NIPA.

Independent Learning Springer Nature

Smart Cities Cybersecurity and Privacy examines the latest research developments and their outcomes for safe, secure, and trusting smart cities residents. Smart cities improve the quality of life of citizens in their energy and water usage, healthcare, environmental impact, transportation needs, and many other critical city services. Recent advances in hardware and software, have fueled the rapid growth and deployment of ubiquitous connectivity between a city's physical and cyber components. This connectivity however also opens up many security vulnerabilities that must be mitigated. *Smart Cities Cybersecurity and Privacy* helps researchers, engineers, and city planners develop adaptive, robust, scalable, and reliable security and privacy smart city applications that can mitigate the negative implications associated with cyber-attacks and potential privacy invasion. It provides insights into networking and security architectures, designs, and models for the secure operation of smart city applications. Consolidates in one place state-of-the-art

academic and industry research Provides a holistic and systematic framework for design, evaluating, and deploying the latest security solutions for smart cities Improves understanding and collaboration among all smart city stakeholders to develop more secure smart city architectures

Les systèmes de mise en œuvre de la protection sociale Springer Nature

The social landscape is undergoing a global change with the emergence of e-payment and blockchain technology. This new technology changes the ways in which consumers and businesses interact with each other. This dynamic offers both opportunities and challenges to the socioeconomic landscape. It is important to understand the strategies, opportunities, and challenges contained in the e-payment and blockchain sector. The Handbook of Research on Social Impacts of E-Payment and Blockchain Technology is a comprehensive reference source that examines the strategies, opportunities, and challenges contained in the value creation of e-payment and blockchain technology, which lead to economic and social progression. Further delving into topics such as mobile financial services, technopreneurship, and cryptocurrencies, this dynamic resource is essential for students, academicians, entrepreneurs, corporate managers, business executives, researchers, blockchain professionals, technologists, systems engineers, policymakers, and government officials.

Critical Literature Review Springer Nature

This book examines prominent issues in the Emerging Markets (EM) from a variety of disciplines in order to make useful societal contributions through knowledge exchange. EMs offer enormous opportunities, but realizing them is both challenging and risky due to inherent uncertainties of such markets. EM's also have unique characteristics that makes them different from developed countries. This causes implications for both theory and practice. These markets necessitate substantial adaptations of developed theories and approaches employed in the Western world. This book investigates problems specific to emerging markets, and identifies new theoretical constructs, hypotheses (re)development, and emphasizes institutional contexts. The chapters in this book establish new conceptual and theoretical paradigms from multidisciplinary perspectives concentrated in the areas of information systems, electronic government, and digital and social media matters. The book focuses on topics in these areas such as digital enterprises, sustainability, telemedicine, and Information Communication Technology (ICT) and surveys the potential challenges and opportunities that may arise. These concepts and topics covered in this book are vital for making the global economy more equitable and sustainable.

RECENT ADVANCES IN COMMERCE & MANAGEMENT, VOLUME-3 IGI Global

Fundamentos de los sistemas de implementación de protección social: Libro de referencia sintetiza las experiencias reales y las lecciones aprendidas de la aplicación de estos sistemas en todo el mundo mostrando una perspectiva amplia de la protección social sobre diversas poblaciones objetivo, como familias pobres o de bajos ingresos, trabajadores en situación de desempleo, personas en condición de discapacidad y personas en situación de riesgo social. El libro analiza diferentes tipos de intervenciones de los gobiernos para ayudar a las personas, familias u hogares mediante programas categóricos, programas contra la pobreza, programas y servicios laborales, prestaciones y servicios por discapacidad, y servicios sociales. El libro de referencia aborda preguntas concretas sobre procedimientos, el «cómo», entre las que se encuentran: ¿Cómo distribuyen los países los beneficios y servicios sociales? ¿Cómo logran hacerlo de forma eficaz y eficiente? ¿Cómo garantizan la inclusión dinámica, sobre todo para las personas más vulnerables y necesitadas? ¿Cómo

promueven una mejor coordinación e integración, no sólo entre los programas de protección social, sino también entre programas de otros sectores del gobierno? ¿Cómo pueden responder a las necesidades de sus poblaciones objetivo y proporcionar una mejor experiencia al cliente? El marco de sistemas de implementación profundiza en los elementos clave de ese entorno operativo. Dicho marco se basa en fases esenciales a lo largo de la cadena de implementación. Los actores principales, como las personas y las instituciones, interactúan a lo largo de esta cadena a través de las comunicaciones, los sistemas de información y la tecnología. Este marco se puede aplicar a la implementación de uno o varios programas y a la implementación de la protección social adaptativa. El libro de referencia se estructura en torno a ocho principios que encuadran el concepto de los sistemas de implementación: 1. No hay un modelo único para los sistemas de implementación, pero existen puntos en común que constituyen el núcleo del marco de los sistemas de implementación. 2. La calidad de la implementación es importante: Las debilidades en alguno de los elementos principales afectarán negativamente a todo el sistema, lo que, a su vez, reducirá el impacto de los programas a los que dan apoyo. 3. Los sistemas de implementación evolucionan a lo largo del tiempo de forma no lineal, y los puntos de partida son fundamentales. 4. Es necesario buscar «la sencillez» y «hacer bien lo sencillo» desde el inicio. 5. La «primera milla» (la interfaz mediante la cual las personas interactúan directamente con las funciones administrativas) suele ser el eslabón más débil en la cadena de implementación. Reformarlo puede requerir un cambio sistémico, pero mejorará considerablemente la eficacia general y mitigará el riesgo de fallos en la primera instancia. 6. Los programas de protección social no operan en un vacío, por lo que sus sistemas de implementación no deberían desarrollarse de forma aislada. Las sinergias entre distintas instituciones y sistemas de información son posibles y pueden mejorar los resultados de los programas. 7. Los sistemas de implementación de protección social contribuyen a la capacidad del gobierno de ayudar a otros sectores, por ejemplo, las subvenciones para seguros de salud, las becas, las tarifas energéticas sociales, las ayudas para la vivienda y los servicios legales. 8. Los desafíos asociados a la inclusión y a la coordinación son amplios y perennes, y motivan la mejora continua de los sistemas de implementación a través de un planteamiento dinámico, integrado y centrado en las personas.

Articles in ITJEMAST @ 12(12) 2021 IGI Global

This text explores vulnerability from the perspective of individuals, groups, communities, and populations, and addresses the implication of that vulnerability for nurses, nursing, and nursing care. Organized into six units, the text presents a basic structure for caring for the vulnerable, and forms a theoretical perspective on caring within a cultural context, with the ultimate goal of providing culturally competent care. Written specifically for nurses, by nurses, Caring for the Vulnerable is a timely and necessary response to the culturally diverse vulnerable populations for whom nurses must provide appropriate and precise care.

Handbook of Research on E-Government Readiness for Information and Service Exchange: Utilizing Progressive Information Communication Technologies IGI Global

Using interdisciplinary approaches to strategic management can strengthen the decision making process. Incorporating various methods will also encourage productivity, expand knowledge of participants, and increase technical proficiency. Analytical Approaches to Strategic Decision-Making: Interdisciplinary Considerations aims to integrate different techniques into the

world's fast-changing and dynamic society to better equip all readers and practitioners with the most effective knowledge. Managers, CEOs, researchers, and academics in the fields of business and leadership will all benefit from this valuable resource through an enhanced understanding of best practices in decision-making and management.

Virtual Work and Human Interaction Research IGI Global

This volume constitutes the refereed proceedings of the First International Conference on Computing, Communication and Learning, CoCoLe 2022, held in Warangal, India, in October 2022. The 25 full papers and 1 short paper presented were carefully reviewed and selected from 117 submissions. The CoCoLe conference focuses on three broad areas of computer science and other allied branches, namely computing, communication, and learning.

Ending hospital detention for non-payment of bills Springer Nature

These proceedings compile selected papers from presenters at the Conference: Managing Digital Industry, Technology and Entrepreneurship 2019 (CoMDITE 2019) which was held on July 10-11, 2019. There are 122 papers from various universities and higher educational institutions in Indonesia and Malaysia. The main research topics in these proceedings are related to: 1) Strategic Management and Ecosystem Business, 2) Digital Technology for Business, 3) Digital Social Innovation, 4) Digital Innovation and Brand Management, 5) Digital Governance, 6)

Financial Technology, 7) Digital and Innovative Education, 8) Digital Marketing, 9) Smart City, 10) Digital Talent Management, and 11) Entrepreneurship. All the papers in the proceedings highlight research results or literature reviews that will both contribute to knowledge development in the field of digital industry.

Emerging Markets from a Multidisciplinary Perspective

Rowman & Littlefield Publishers

Interorganizational cooperation between partners, markets, and business leaders is an important facet of business and maintaining organizational competitiveness. Understanding how to effectively collaborate with partners in other organizations is an important skill for the success of all parties. Information Acquisitions and Sharing through Inter-Organizational Collaboration: Impacts of Business Performance in China discusses the effectiveness and impact of trust, e-business diffusion, and organizational processes on business performance in cooperative scenarios. Incorporating data from over 500 organizations in China's manufacturing sector, this book is an essential reference for business leaders, CEOs, senior managers, and all other members of organizations seeking to better collaborate with their partners.

Strategic System Assurance and Business Analytics Springer

"This book offers case studies, methodologies, frameworks and architectures, and generally the cutting edge in research within the field of customer relationship management"--Provided by publisher.
