A masterly and beautifully written account of the impact of Alexander von Humboldt on nineteenth-century American history and culture The naturalist and explorer Alexander

von Humboldt (1769-1859) achieved unparalleled fame in his own time. Today, however, he and his enormous legacy to American thought are virtually unknown. In *The Humboldt Current*, Aaron Sachs traces Humboldt's pervasive influence on American history through examining the work of four explorers—J. N. Reynolds, Clarence King,

George Wallace, and John Muir—who embraced Humboldt's idea of a "chain of connection" uniting all peoples and all environments. A skillful blend of narrative and interpretation that also discusses Humboldt's influence on Emerson, Whitman, Thoreau, Melville, and Poe, *The Humboldt Current* offers a colorful, passionate, and superbly written

reinterpretation of nineteenth-century American history.

**A Dark Night's Dreaming** Rowman & Littlefield

This book analyses actual and potential normative (whether legislative or contractual) conflicts and complex transnational disputes related to state-controlled enterprises (SCEs) operations and how they are interwoven with the problem of foreign direct investment. Moreover, SCEs also fall within the remit of international political

economy, international economics and other SCE-related fields that go beyond purely legal or regulatory matters. In this connection, research on such economic and political determinants of SCE's operations greatly informs and supplements the state of knowledge on how to best regulate cross-border aspects of SCE's and is also covered in this book. The book also aims to analyse the "SCE phenomenon" which includes a wide panoply of entities that have various structures

with different degrees of control by states at the central or regional level, and that critically discuss the above-mentioned overlapping legal economic and political systems which can emerge under various shades of shadows casted by governmental umbrellas (i.e., the control can be exercised through ownership, right to appoint the management, and special-voting-rights). The chapters in this book are grouped, so as to address cross-border investment by and in SCE,

into four coherent major parts, namely --- (i) the regulatory framework of state capitalism: laws, treaties, and contracts; (ii) economic and institutional expansion of state capitalism; (iii) the accountability of state capitalism: exploring the forms of liabilities; and (iv) regional and country perspectives.

Contributions address the core theme from a broad range of SCE and international economic regulations, including but not limited to competition law, WTO law, investment

law, and financial/monetary law. They also cover the new emerging generation of Free Trade Agreements (EU-Vietnam FTA, EU China investment treaty, Regional Comprehensive Economic Partnership; and the coordination between treaty systems). The book is a valuable addition and companion for courses, such as international trade law, international law of foreign investment, transnational law, international and economic development,

world politics, law of preferential trade agreements, international economics, and economics of development.

Book Review Digest

Ediciones AKAL

[[ Best known as the author of imaginative short fiction, such as *The Fall of the House of Usher* and *The Cask of Amontillado*, and as the author of hauntingly sonorous poems such as *The Raven*, Edgar Allan Poe was a leading practitioner of the American Gothic and

helped popularize the short story as a genre. This reference work assembles in dictionary format a complete and current body of information on Poe's life and work. More than 1900 entries cover all phases of Poe's art and literary criticism, his family relationships, his numerous travels and residences, and the abundance of critical responses to his works. Each entry provides bibliographical information, and the volume concludes with an

extensive listing of works for further consideration. ]] Best known for his mysterious and imaginative short fiction, such as *The Fall of the House of Usher* and *The Cask of Amontillado*, as well as hauntingly sonorous poems such as *The Raven*, Edgar Allan Poe has secured a lasting place in the American literary canon. He was one of the first American authors to be given serious attention in Europe, and his works popularized the Gothic, the short story, and

detective fiction in America. Poe's works are frequently studied in schools and colleges, but he also retains his appeal as one of America's most demanding popular authors. His works reflect his vast and sometimes arcane erudition, his probing insights into the workings of the mind, his theories of literature and aesthetics, and his interest in science and the supernatural. Through more than 1900 alphabetically arranged entries, this reference book provides complete

and current coverage of Poe's life and work. Some entries treat Poe's known reading and his responses to literary contemporaries and international literary figures. Others comment on the impact of various writers and literary traditions on Poe's imagination. Still others address Poe's views on subjects ranging from Shakespeare to mesmerism to phrenology. Each entry is supplemented by a bibliographical note which gives the basis for the entry and suggests

sources for further investigation. Each entry for Poe's fiction and poetry contains a critical synopsis, and an extensive bibliography at the end of the volume lists the most important critical and biographical studies of Poe. The Other Poe Springer This book constitutes revised post-proceedings of the 4th International Symposium on Pervasive Computing Paradigms for Mental Health, MindCare 2014, held in Tokyo, Japan, in May 2014. The 11 full and 5 short papers

presented were carefully reviewed and selected from 26 submissions for inclusion in the proceedings. The papers are organized in topical sections on recognition and assessment, mental health management, improving communication, depression, and self-applied treatments. *American Literary Scholarship* Rowman & Littlefield Complementing and extending a project begun by Lois Vines, this book includes essays on Poe's

influence abroad from Japanese author, Edogawa Rampo, to Russian author, Nikolai Gogol, and takes a wider perspective on Poe's influence by including essays on Poe's impact on American authors from Harriet Jacobs to Joyce Carol Oates.

**Newsweek** Springer From the glossy monochrome of the classic Hollywood romance, to the gritty greyscale of the gangster picture, to film noir's moody interplay of light and shadow, black-and-

white cinematography has been used to create a remarkably wide array of tones. Yet today, with black-and-white film stock nearly impossible to find, these cinematographic techniques are virtually extinct, and filmgoers' appreciation of them is similarly waning. *Black and White Cinema* is the first study to consider the use of black-and-white as an art form in its own right, providing a comprehensive and global overview of the era when it flourished, from the 1900s to the 1960s.

Acclaimed film scholar Wheeler Winston Dixon introduces us to the masters of this art, discussing the signature styles and technical innovations of award-winning cinematographers like James Wong Howe, Gregg Toland, Freddie Francis, and Sven Nykvist. Giving us a unique glimpse behind the scenes, Dixon also reveals the creative teams—from lighting technicians to matte painters—whose work profoundly shaped the look of black-and-white

cinema. More than just a study of film history, this book is a rallying cry, meant to inspire a love for the artistry of black-and-white film, so that we might work to preserve this important part of our cinematic heritage.

Lavishly illustrated with more than forty on-the-set stills, *Black and White Cinema* provides a vivid and illuminating look at a creatively vital era.

*Arthur Machen*. - *New York (1964)*. 175 S. 8°

Libraries Unlimited  
This international and intercultural book

examines translation histories and outstanding readings of the words of Edgar Allan Poe in nineteen national and literary traditions. It maps out Poe's global dissemination and examines the different designs, processes, and offshoots of the appropriations of his works.

**A Research Guide to Gothic Literature in English** SAGE

The Gothic began as a designation for barbarian tribes, was associated with the cathedrals of the

High Middle Ages, was used to describe a marginalized literature in the late eighteenth century, and continues today in a variety of forms (literature, film, graphic novel, video games, and other narrative and artistic forms). Unlike other recent books in the field that focus on certain aspects of the Gothic, this work directs researchers to seminal and significant resources on all of its aspects. Annotations will help researchers determine what materials best suit their needs. A

Research Guide to Gothic Literature in English covers Gothic cultural artifacts such as literature, film, graphic novels, and videogames. This authoritative guide equips researchers with valuable recent information about noteworthy resources that they can use to study the Gothic effectively and thoroughly.

**LIFE** Univ of South Carolina Press  
In this new edition of Best Words, Best Order, Stephen Dobyns further explains the mystery of

the poet's work. Through essays on memory and metaphor, pacing, and the intricacies of voice and tone, and thoughtful appreciations of Chekhov, Ritsos, Mandelstam, and Rilke, Dobyns guides readers and writers through poetry's mysterious twilight communiques. For this new second edition, Dobyns has added two new essays, one dealing with the idea of "beauty" in poetry and another dealing with the almost mystical way poets connect seemingly

disparate elements in a single work.

**Translated Poe** Penguin Classics

This collection of essays examines the legacy of H.P. Lovecraft's most important critical work, Supernatural Horror in Literature. Each chapter illuminates a crucial aspect of Lovecraft's criticism, from its aesthetic, philosophical and literary sources, to its psychobiological underpinnings, to its pervasive influence on the conception and course of horror and weird literature

through the twentieth and early twenty-first centuries. These essays investigate the meaning of cosmic horror before and after Lovecraft, explore his critical relevance to contemporary social science, feminist and queer readings of his work, and ultimately reveal Lovecraft's importance for contemporary speculative philosophy, film and literature.  
Hastings Communications and Entertainment Law Journal (Comm/Ent).

Penguin  
A Dark Night's Dreaming opens by defining the shape of horror fiction today, illuminating the genre's narrative themes, psychological and social contexts, and historical development. The core of the volume focuses on the lives and major works of the six who have dramatically shaped the genre: William Peter Blatty, Thomas Harris, Stephen King, Anne Rice, Peter Straub, and Whitley Strieber. A final chapter analyzes the complex relationship between

horror fiction and its adaptation to film. Looking beyond the tormented maidens, madmen, monsters, and other archetypes of the genre, these critics differentiate contemporary Gothic fiction from that of earlier generations while demonstrating that horror remains one of the most important and consistent strains connecting the diverse elements of the American literary tradition. They comment on the genre's enormous popularity and undeniable

influence in American society and scrutinize its changing representations of women, monsters, and gore. The volume concludes with an extensive bibliography of primary and secondary works.

*Science Fiction and Fantasy Reference Index, 1992-1995* Bloomsbury Publishing

This collection of fifteen original essays and one original poem explores the theme of “place” in the life, works, and afterlife of Edgar A. Poe (1809-1849). Poe and

Place argues that “place” is an important critical category through which to understand this classic American author in new and interesting ways. The geographical “places” examined include the cities in which Poe lived and worked, specific locales included in his fictional works, imaginary places featured in his writings, physical and imaginary places and spaces from which he departed and those to which he sought to return, places he claimed to have gone, and places that

have embraced him as their own. The geo-critical and geo-spatial perspectives in the collection offer fresh readings of Poe and provide readers new vantage points from which to approach Poe’s life, literary works, aesthetic concerns, and cultural afterlife.

EDRA; Proceedings of the Annual Environmental Design Research Association Conference

Palgrave Macmillan  
This collection of essays, which rediscovers Edgar Allan Poe’s not forgotten

lore, comprises a two-headed scholarly body, drawing from communication and linguistics and literature, although it also includes many other academic offshoots which explore Poe's labyrinthine and variegated imagination. The papers are classified according to two main domains, namely: (I) Edgar Allan Poe in Language, Literature and Translation Studies, and (II) Edgar Allan Poe in Communication and the Arts. In short, this book combines rigour and

modernity and pays homage, with a fresh outlook, to Poe's extraordinary originality and brilliant weirdness which prompted renowned authors like James Russell Lowell and Howard P. Lovecraft to claim, respectively, that "Mr. Poe has that indescribable something which men have agreed to call genius" and that "Poe's tales possess an almost absolute perfection of artistic form which makes them veritable beacon lights in the province of the short story. Poe's

weird tales are alive in a manner that few others can ever hope to be." Weird Tales #337 (Book Paper Edition) Bloomsbury Publishing USA  
Bringing together leading international scholars, John Banville and His Precursors explores Booker and Franz Kafka prize-winning Irish author John Banville's most significant intellectual influences. The book explores how Banville's novels engage deeply with a wide range of sources, from literary figures such as Samuel

Beckett, Heinrich von Kleist, Wallace Stevens, Rainer Maria Rilke, and Henry James, to thinkers such as Freud, Heidegger, and Blanchot. Reading the full range of Banville's writings - from his Booker Prize-winning novel *The Sea* to his latest book, *Mrs Osmond - John Banville and His Precursors* reveals the richness of the author's work. In this way, the book also raises questions about the contemporary moment's relationship to a variety of intellectual and cultural traditions - Romanticism,

Modernism, existentialism - and how the significance of these can be appreciated in new and often surprising ways. [Musical Influence on American Poetry](#) Lehigh University Press LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have

free access to share, print and post images for personal use.

**Poe and Place** Modern Language Association James McNeill Whistler and France: A Dialogue in Paint, Poetry, and Music is the first full-length and in-depth study to position this painter within the overall trajectory of French modernism during the second half of the nineteenth century and to view the artist as integral to the aesthetic projects of its most original contributors. Suzanne M. Singletary maintains that

Whistler was in a unique situation as an insider within the emerging French avant-garde, thereby in an enviable position to both absorb and transform the innovations of others – and that until now, his widespread influence as a catalyst among his colleagues has been neither investigated nor appreciated. Singletary contends that Whistler’s importance rivals that of Manet, whose multi-layered (and often unexpected) interconnections with

Whistler are the focus of one chapter. In addition, Whistler’s pivotal role in linking the legacies of Baudelaire, Delacroix, Gautier, Wagner, and other mid-century innovators to the later French Symbolists has previously been largely ignored. Courbet, Degas, Monet, and Seurat complete the roster of French artists whose dialogue with Whistler is highlighted. *Amerikastudien* Rutgers University Press Extending his earlier two volumes covering

1878-1991, Hall cites without annotation books, articles, essays, new reports, reviews, and audiovisual items about science fiction, fantasy, and horror in all its media published during the three years. About 90% of the sources cited are in English. Most of the subject entries are titles or authors, but others include motion pictures, the sociology of science fiction, and teaching. Only secondary material is included. Annotation copyrighted by Book News, Inc., Portland, OR

*Ecology* Routledge "Emilia Pardo Bazán (1851-1921) was the most prolific and influential woman writer of late nineteenth-century Spain," write the editors of this volume in the MLA's *Approaches to Teaching World Literature* series. Contending with the critical literary, cultural, and social issues of the period, Pardo Bazán's novels, novellas, short stories, essays, plays, travel writing, and cookbooks offer instructors countless opportunities to engage

with a variety of critical frameworks. The wide range of topics in the author's works, from fashion to science and technology to gender equality, and the brilliance of her literary style make Pardo Bazán a compelling figure in the classroom. Part 1, "Materials," provides biographical and critical resources, an overview of Pardo Bazán's vast and diverse oeuvre, and a literary-historical timeline. It also reviews secondary sources, editions and translations,

and digital resources. The twenty-three essays in part 2, "Approaches," explore various issues that are central to teaching Pardo Bazán's works, including the author's engagement with contemporary literary movements, feminism and gender, nation and the late Spanish empire, Spanish and Galician identities, and nineteenth-century scientific and medical discourses. Film adaptations and translations of Pardo Bazán's works are also addressed. Highlighting

the artistic, social, and intellectual currents of Pardo Bazán's writings, this volume will assist instructors who wish to teach the author's works in courses on world literature, nineteenth-century literature, and gender studies as well as in Spanish-language courses.

*The Humboldt Current*  
Greenwood Publishing  
Group

Popular American fiction has now secured a routine position in the higher education classroom despite its historic status

as culturally suspect. This newfound respect and inclusion have almost certainly changed the pedagogical landscape, and *Teaching Tainted Lit* explores that altered terrain. If the academy has historically ignored, or even sneered at, the popular, then its new accommodation within the framework of college English is noteworthy: surely the popular introduces both pleasures and problems that did not exist when faculty exclusively taught literature from an

established "high" canon. How, then, does the assumption that the popular matters affect teaching strategies, classroom climates, and both personal and institutional notions about what it means to study literature? The essays in this collection presume that the popular is here to stay and that its instructive implications are not merely noteworthy, but richly nuanced and deeply compelling. They address a broad variety of issues concerning canonicity,

literature, genre, and the classroom, as its contributors teach everything from Stephen King and Lady Gaga to nineteenth-century dime novels and the 1852 best-seller Uncle Tom’s Cabin. It is no secret that teaching popular texts fuels controversies about the value of cultural studies, the alleged relaxation of aesthetic standards, and the possible “dumbing down” of Americans. By implicitly and explicitly addressing such contentious issues, these essays invite a

broader conversation about the place of the popular not only in higher education but in the reading lives of all Americans.

Poe's Pervasive Influence  
 American Literary Scholarship  
 Winner of the 2019 Patrick F. Quinn Award for the best book on Poe (awarded by the Poe Studies Association) Edgar Allan Poe and His Nineteenth-Century American Counterparts addresses Poe's connections with, critical assessments of,

borrowings from, and effect on his literary peers. It situates Poe within his own time and place, paying particular attention to his interactions with, and impact on, figures such as Nathaniel Hawthorne, Walt Whitman, Herman Melville, Mark Twain, Harriet Jacobs, and Pauline Hopkins. John Cullen Gruesser rebuts myths that continue to cling to Poe, demonstrates Poe's ability to transform themes he encountered in the works of his literary

contemporaries into great literature, and establishes

the profound influence of Poe's invention of detective fiction on

nineteenth-century American writers.
