Yes, kids, there is an alternative to the big, bad SAT—it's called the ACT. And yes, there's now an alternative to the big, bad, boring ACT study books: *Up Your Score: ACT*, the prep and survival guide with attitude. Like *Up Your Score: SAT*, *Up Your Score: ACT* is the underground guide for the 1.65 million kids who take the ACT every year (more than take the SAT). It's written by Chris Arp, age 26, a Princeton graduate, along with his colleagues at Manhattan's prestigious Veritas Test Prep company and three high school seniors who each scored an ACT-perfect 36. They take the guerrilla guide *Up Your Score* approach of combining a thorough knowledge of how the test works and the subjects it covers with for-student, by-student tips and strategies; lively pop culture references and jokes; and a fresh knowledge of what it's like to actually take the test. Ace the reading section by developing the Five Habits of Lean Forward Reading, including Treat reading like a conversation and Pay attention to direction words. Master the math section through techniques like "plugging in," an amazing trick that simplifies all algebra word problems. The ACT is heavy on grammar, so the book delves into commas, semicolons, pronouns, transitions, and more. It covers the science the way the test does—showing how to use science reasoning. Plus—how to make GameFace Quintuple Sugar Blast Bars for that needed burst of energy.

Fierce's mother has left her pack to become a human. Left behind, Fierce is determined to have nothing to do with humans. But one day she finds a woman who reminds her of her mother in the forest. She hesitates for a moment, just long enough for the woman--Princess Jaleel--to turn her into a human with the wild magic. Soon Fierce is dragged into human concerns about the effects of the misuse of wild magic by Princess Jaleel. Will Fierce choose to be human and save the world or to be a hound again and save herself? "One of my favorite authors." Orson Scott Card Praise for *The Princess and the Hound*, the first book in this series: "Powerful, surprising, moving, and deep. . . *The Princess and the Hound* is a classic. It defies rules and formulas. It does nothing in the way that other fantasies have taught us to expect. Yet every rule-defying decision by Harrison is exactly right, leading to a breathtakingly right ending." Orson Scott Card "Fans of Robin McKinley, Patricia McKillip, Franny Billingsley, Cornelia Funke and Sherwood Smith should add this to their "must" be read list." Heidi Anne Heiner, *SurlaLune Fairy Tales* "Not since Tale of Desperaux have I opened a book and wanted to read aloud so much. In her prologue Mette Ivie Harrison evoked exactly the tone and voice of a classic fairy tale in the oral tradition. . ."

interactivereader.com For *The Princess and the Bear*: "The relationships between animal and human, and the magic in being both, are exquisitely delineated, and the love story between the

two strong protagonists is all the more powerful for being intensely restrained." Kirkus, starred review. For *The Princess and the Snowbird*: "Once again, a strong female protagonist, romance, magical adventure and provocative questions will capture teens." Gillian Engberg, Booklist "Harrison's fairy tales always feel like they are full of untapped depth to me." Melissa Baldwin "The love of the hound and the bear is one for the ages. . . . This unusual princess story is less about castles and gowns and more about characters and journeys." Jessica Harrison, *Deseret News* Other praise for Mette Ivie Harrison's books: "An extraordinary novel . . . I cannot recommend this novel highly enough . . . *Mira, Mirror* is one of those rare things - an imaginative fantasy that is also a deep novel about the human spirit. One of the most original, insightful fantasy novels ever written . . . This is a classic; you don't want to miss it." Orson Scott Card *Mira, Mirror* "grips you from the very first page all the way to the surprising conclusion." Holly Black, author of *The Spiderwick Chronicles* "Enchanting story . . . *Mira* is perhaps the most intriguing and complex protagonist ever to grace the pages of a re-told fairy tale. . . . *Mira, Mirror* is truly original." Amie Rose Rotruck, *Children's Literature* "Harrison brilliantly recasts a minor prop from the original story as a tragic heroine, and, in doing so, adds a whole new dimension to the tale, for a job well done." Michael M. Jones, *Chronicle* *Mira, Mirror* awards: Spirit Of 76 Recommended Book List "Borders Recommends" List Association of Mormon Letters Honorable Mention for Juvenile Books 2004 The Center for Children's Literature "Too Good to Miss" List 2005 Utah Center for the Book Letters for Literature Level II 2005-2006 Winner The Children's Bookstore "Pick of the Month" November/December 2004 [Wishing Pearl \(Rescue Princesses #2\)](#) Kluwer Law International B.V.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Princess Rules Oxford University Press, USA

For a number of years, those interested in recovering women's thought have known about Princess Elisabeth, a seventeenth-century correspondent, friend, and an acute, persistent critic of Descartes's philosophy. Her questions provoked the philosopher to think more seriously about ethics and the passions, as Elisabeth found his answer--that an all-powerful God can do anything--extremely unsatisfactory. Up to now, only a few of her letters have found their way into print. This volume includes translations of all of Elisabeth's extant letters to Descartes, as well as of other materials relevant to understanding her philosophical perspective and her life. Andrea Nye analyzes the correspondence between Elisabeth and Descartes to support the thesis that Elisabeth developed and defended a worldly philosophy of life in opposition to the unworldly rules Descartes offered for living a tranquil and happy life. Nye has supplemented the translations with a running commentary on the historical, biographical, and intellectual context of the letters.

Dementia Carers' Handbook Workman Publishing

The Aesthetics of Self-Harm presents a new approach to understanding parasuicidal behaviour, based upon an examination of online communities that promote performances of self-harm in the pursuit of an idealised beauty. The book considers how online communities provide a significant level of support for self-harmers and focuses on relevant case studies to establish a new model for the comprehension of the online supportive community. To do so, Alderton explores discussions of self-harm and disordered eating on social networks. She examines aesthetic trends that contextualise harmful behavior and help people to perform feelings of sadness and vulnerability online. Alderton argues that the traditional understanding of self-violence through medical discourse is important, but that it misses vital elements of human group activity and the motivating forces of visual imagery. Covering psychiatry and psychology, rhetoric and sociology, this book provides essential reading for psychologists, sociologists and anthropologists exploring group dynamics and ritual, and rhetoricians who are concerned with the communicative powers of images. It should also be of great interest to medical professionals dealing with self-harming patients.
