Describes the essential  
elements of the incidents

from the Whiskey  
Rebellion in 1794 to the  
Reconstruction that  
followed the Civil War and  
the ways in which federal  
military force was applied  
in each case. Includes: the  
Fries Rebellion, the Burr  
Conspiracy, Slave

Rebellions, the  
Nullification Crisis, the  
Chesapeake and Ohio  
Canal Riots, the  
3Buckshot War2, the  
Patriot War, the Dorr  
Rebellion, the Army as  
Posse Comitatus, San  
Francisco Vigilantes, the

Utah Expedition, the Civil War, etc. Extensive bibliography. Index. Full-color and b&w photos and maps.

### **An English Dictionary....**

Createspace Independent Publishing Platform  
Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of

all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's

small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

The New Yorker's legendary Paris correspondent explores life and love in the Jazz Age in this novel inspired by her days in Greenwich Village. From the 1920s to

the 1970s, Janet Flanner kept Americans abreast of the goings-on in Paris with a biweekly New Yorker column written under the name Genêt. But before she became one of the country's most famous expats, she lived among the artists and writers of the Algonquin Round Table. Flanner shares a vivid depiction of the New York she knew in this tale of a young woman's self-discovery. Having left Ohio in search of liberation, Delia Poole struggles to find her place in the big city. After

getting work as a costume designer for musical revues, she and her dear friend Nancy are finally finding happiness on their own terms. But nothing is simple. From her adoring suitor, Paul, to her widowed mother's decision to move to New York, Delia must grapple with expectations, responsibilities, and her own uncertainty. The Cubical City is Janet Flanner's only published novel. Though homosexuality is never overtly expressed, it is considered by literary

scholars to be one of the first examples of modernist lesbian literature.

**Poor Economics** Walter de Gruyter GmbH & Co KG Sharpen your French grammar with skill-building exercises If you want to be proficient in French, you eventually have to clear the bothersome hurdle of grammar. The best way to conquer this obstacle is through hands-on experience. Covering all facets of French grammar--from prepositions and pronouns

to verbal forms and tenses--French Grammar Drills helps you learn often-perplexing topics with fun and engaging exercises. This comprehensive book features: More than 150 exercises that demonstrate how the French grammar system works as well as review exercises to reinforce your learning An answer key to give you immediate clarification on any concept o Quick reviews bring you up to speed on grammar Topics include: Indefinite and

definite articles \* Demonstrative adjectives \* Possessive pronouns \* Conjunctions \* Imparfait and passé composé \* Verbal expressions and idioms \* and more  
*A Dictionary of Medicine Including General Pathology, General Therapeutics, Hygiene, and the Diseases Peculiar to Women and Children*  
 McGraw Hill Professional  
 This book examines the nature of musical performance. In it, Dorottya Fabian explores the contributions and limitations of some of

these approaches to performance, be they theoretical, cultural, historical, perceptual, or analytical. Through a detailed investigation of recent recordings of J. S. Bach's Six Sonatas and Partitas for Solo Violin, she demonstrates that music performance functions as a complex dynamical system. Only by crossing disciplinary boundaries, therefore, can we put the aural experience into words. A Musicology of Performance provides a model for such a method

by adopting Deleuzian concepts and various empirical and interdisciplinary procedures. Fabian provides a case study in the repertoire, while presenting new insights into the state of baroque performance practice at the turn of the twenty-first century. Through its wealth of audio examples, tables, and graphs, the book offers both a sensory and a scholarly account of musical performance. These interactive elements map the connections between

historically informed and mainstream performance styles, considering them in relation to broader cultural trends, violin schools, and individual artistic trajectories. A Musicology of Performance is a must read for academics and post-graduate students and an essential reference point for the study of music performance, the early music movement, and Bach's opus. **Burning Bright** Harper Collins Since its publication in

1969, Émile Benveniste's Vocabulaire--here in a new translation as the Dictionary of Indo-European Concepts and Society--has been the classic reference for tracing the institutional and conceptual genealogy of the sociocultural worlds of gifts, contracts, sacrifice, hospitality, authority, freedom, ancient economy, and kinship. A comprehensive and comparative history of words with analyses of their underlying neglected genealogies and structures of signification-

-and this via a masterful journey through Germanic, Romance, Indo-Iranian, Latin, and Greek languages--Benveniste's dictionary is a must-read for anthropologists, linguists, literary theorists, classicists, and philosophers alike. This book has famously inspired a wealth of thinkers, including Roland Barthes, Claude Lévi-Strauss, Pierre Bourdieu, Jacques Derrida, Umberto Eco, Giorgio Agamben, François Jullien, and many others. In this new volume, Benveniste's

masterpiece on the study of language and society finds new life for a new generation of scholars. As political fictions continue to separate and reify differences between European, Middle Eastern, and South Asian societies, Benveniste reminds us just how historically deep their interconnections are and that understanding the way our institutions are evoked through the words that describe them is more necessary than ever.

This extract from Ovid's 'Theban History' recounts the confrontation of Pentheus, king of Thebes, with his divine cousin, Bacchus, the god of wine. Notwithstanding the warnings of the seer Tiresias and the cautionary tale of a character Acoetes

(perhaps Bacchus in disguise), who tells of how the god once transformed a group of blasphemous sailors into dolphins, Pentheus refuses to acknowledge the divinity of Bacchus or allow his worship at Thebes. Enraged, yet curious to witness the orgiastic rites of the nascent cult, Pentheus conceals himself in a grove on Mt. Cithaeron near the locus of the ceremonies. But in the course of the rites he is spotted by the female participants who rush upon him in a delusional

frenzy, his mother and sisters in the vanguard, and tear him limb from limb. The episode abounds in themes of abiding interest, not least the clash between the authoritarian personality of Pentheus, who embodies 'law and order', masculine prowess, and the martial ethos of his city, and Bacchus, a somewhat effeminate god of orgiastic excess, who revels in the delusional and the deceptive, the transgression of boundaries, and the blurring of gender

distinctions. This course book offers a wide-ranging introduction, the original Latin text, study aids with vocabulary, and an extensive commentary. Designed to stretch and stimulate readers, Gildenhard and Zissos's incisive commentary will be of particular interest to students of Latin at AS and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Ovid's poetry and discussion of the most recent scholarly

thought.

Lifestyle in Siberia and the Russian North breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective. Showcasing the collective work of ten experienced scholars in the field, the book goes beyond concepts of tradition that have often been the focus of previous research, to explain how

political, economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life. Each contribution is drawn from meticulous first-hand field research, and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban, Euro-American context and employed in a markedly different setting. Lifestyle in Siberia

and the Russian North builds on the contributors' clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region. This book provides inspiring reading for students and teachers of Anthropology, Sociology and Cultural Studies and for anyone interested in Russia and its regions. By providing ethnographic case studies, it is also a useful basis for teaching anthropological methods and concepts, both at graduate and

undergraduate level. Rigorous and innovative, it marks an important contribution to the study of Siberia and the Russian North.

“A gorgeous, brutal writer.” —Richard Price, New York Times bestselling author of *Lush Life* and *Clockers* In *Burning Bright*, Pen/Faulkner finalist and New York Times bestselling author of *Serena*, Ron Rash, captures the eerie beauty

and stark violence of Appalachia through the lives of unforgettable characters. With this masterful collection of stories that span the Civil War to the present day, Rash, a supremely talented writer who “recalls both John Steinbeck and Cormac McCarthy” (*The New Yorker*), solidifies his reputation as a major contemporary American literary artist.

**The Syntax of Japanese Honorifics** Open Road Media

e emperor Nero is etched

into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' *Annals* have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's fledgling stage career including his plans for a grand tour of Greece; his

participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings

by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with

vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought.

Jackson Pollock Penguin Group  
A Washington Post

Notable Book One of the Best Books of the Year: NPR, The Economist, Financial Times Shortlisted for the Costa Novel Award Finalist for the Women's Prize for Fiction Here is the story of the Iliad as we've never heard it before: in the words of Briseis, Trojan queen and captive of Achilles. Given only a few words in Homer's epic and largely erased by history, she is nonetheless a pivotal figure in the Trojan War. In these pages she comes fully to life: wry, watchful, forging

connections among her fellow female prisoners even as she is caught between Greece's two most powerful warriors. Her story pulls back the veil on the thousands of women who lived behind the scenes of the Greek army camp—concubines, nurses, prostitutes, the women who lay out the dead—as gods and mortals spar, and as a legendary war hurtles toward its inevitable conclusion. Brilliantly written, filled with moments of terror and beauty, The Silence of the

Girls gives voice to an extraordinary woman—and makes an ancient story new again. **The Churchman** Vintage A Spanish-English bilingual dictionary specifically written to meet the needs of Spanish learners of English. The best bilingual dictionary of Spanish and English for beginner to upper-intermediate learners. It has been especially written to meet the needs of Spanish speakers learning English and includes over 110,000 headwords and phrases,

as well as a wealth of information geared specifically to enhance understanding and improve communication skills in English. It includes extensive notes highlighting the most common mistakes made by Hispanic learners (informed by the Cambridge Learner Corpus). The grammar boxes concentrate on the most difficult and problematic aspects of learning English.

This new primer offers a succinct, single-volume introduction to biblical Greek that has already been tested in classrooms

around the country. Divided into 32 separate lessons, each containing a generous number of exercises, the text leads students from the Greek alphabet to a working understanding of the language of the Bible. The Literary Northwest Open Book Publishers This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue

of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book

provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book

include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters ) to be spelt with those single letters in non-final syllables.

**Opportunity** The Museum of Modern Art Our schools are troubled with a multiplication of studies, each in turn having its own multiplication of materials and principles. Our teachers find their tasks

made heavier in that they have come to deal with pupils individually and not merely in mass. Unless these steps in advance are to end in distraction, some clew of unity, some principle that makes for simplification, must be found. This book represents the conviction that the needed steadying and centralizing factor is found in adopting as the end of endeavor that attitude of mind, that habit of thought, which we call scientific. This scientific attitude of mind might, conceivably, be

quite irrelevant to teaching children and youth. But this book also represents the conviction that such is not the case; that the native and unspoiled attitude of childhood, marked by ardent curiosity, fertile imagination, and love of experimental inquiry, is near, very near, to the attitude of the scientific mind. If these pages assist any to appreciate this kinship and to consider seriously how its recognition in educational practice would make for individual happiness and

the reduction of social waste, the book will amply have served its purpose. It is hardly necessary to enumerate the authors to whom I am indebted. My fundamental indebtedness is to my wife, by whom the ideas of this book were inspired, and through whose work in connection with the Laboratory School, existing in Chicago between 1896 and 1903, the ideas attained such concreteness as comes from embodiment and testing in practice. It is a pleasure, also, to

acknowledge indebtedness to the intelligence and sympathy of those who coöperated as teachers and supervisors in the conduct of that school, and especially to Mrs. Ella Flagg Young, then a colleague in the University, and now Superintendent of the Schools of Chicago. *Kew Gardens Illustrated* New York : Harper & Row Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked

by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-

conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences.

This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Goldenhard's incisive commentary will be of

particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.
