We know the real estate licensing exam
can be tough, and very nerve-wracking
to prepare for. That's why we created
Oregon Real Estate License Exam Prep
(OR-RELEP) the way we did. Since we
have been managing real estate schools
and developing curriculum for forty
years, we know how all this works - or
fails to work. OR-RELEP is
comprehensive in that it contains both
key content review and testing practice.
And the text review is Oregon-specific -
not just simplistic national content, but
terse, relevant and accurate Oregon
laws and regulations presented as a
well-organized set of state 'key point
reviews' ideal for pre-test memorization.
But let's not dismiss the importance of
the national content either. OR-RELEP's
national key point reviews are a succinct
compression of tested national principles
and practices that comprise the national
portion of state license exams from
coast to coast. Our content is drawn
from our own national textbook,
Principles of Real Estate Practice - one of*

the most widely used principles
textbooks in the country. Finally, our
national content, as well as our question
selection, is further tailored to the state
testing outline promulgated by PSI for
Oregon. Thus the breadth and depth of
the law reviews and test questions
reflect the topic emphasis of your state's
testing service and your Oregon license
exam. A word about the test questions...
OR-RELEP's testing practice section
consists of ten national practice tests,
seven state practice tests, and one state
exam sample test. The practice tests are
roughly 50 questions in length and the
sample test is 100 questions. The test
questions are designed to cover the
content covered by the law reviews -
which reinforces your learning of the
total body of information tested by your
state exam. The questions are direct, to
the point, and designed to test your
understanding. When you have
completed a given test, you can check
your answers against the answer key in
the appendix. You may also note that
each question's answer is accompanied
by a brief explanation, or "rationale" to
further reinforce your understanding. In
the end, as you know, it's all up to you.
Unlike other publications, we are not
going to tell you that using this book will
guarantee that you pass your state
exam. It still takes hard work and study
to pass. But we have done our best here
to get you ready. Following that, the
most we can do is wish you the best of
success in taking and passing your
Oregon real estate exam. So good luck!!

Title shows resumes and cover letters of people seeking employment in the construction industry. Job hunting techniques are explained in step-by-step fashion in order to benefit those seeking

construction work. Because the construction industry tends to be cyclical, a helpful section is included which describes how to transfer construction industry experience to other fields and industries. The book's main contents are the resumes and cover letters of construction industry professionals. Included are resumes of project manager, carpenter, foreman, safety manager, electrician, brick mason, engineering manager, real estate agent, plumber, job planner, sander, flooring installer, interior designer, independent contractor, and many others.

We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Real Estate License Exam Prep (RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. First, RELEP is comprehensive in that it contains both key content review and testing practice. RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Thus the breadth and depth of the law reviews

and test questions reflect the topic emphasis of the three major testing services for the national portion of the state exam. A word about the test questions... RELEP's testing practice section consists of ten national practice tests and one sample test. The practice tests are roughly 50 questions in length and the sample test is 75 questions. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. Your particular study and testing practice strategy using RELEP is up to you. But to fully exploit its comprehensive content coverage, you should try to review and memorize the key point reviews as much as possible. Then you should make every effort to take each exam, review your mistakes, and re-read the key point reviews that cover your weaker areas. One note of caution is also in order: this National edition of RELEP does not contain state laws and practices applicable in your state of residence or where you intend to get your license. Therefore you will need to study state-level laws given to you by your prelicense school in order to pass the state portion of the state exam. While we are in the process of adding state-level materials to our RELEP series we still have a ways to go. So, until we have state review materials for your state, we give you this publication - a total-coverage review and practice resource of the highest quality for the national portion of the state exam. Now that we've have been straightforward with you, a second word of caution. Don't be fooled by other national prep

books – that contain no state-level materials – that advertise you will pass your state exam by learning and reviewing what’s in their publication. You won’t. It is absolutely essential that you develop a comprehensive understanding of both national and state laws and principles in order to pass your state’s license examination. While RELEP is as comprehensive a national prep text as it gets, in the end -- as your prelicense course hopefully informed you -- it’s all up to you. It still takes hard work and study to pass. But we have done our best here to get you ready for the national portion of the state exam. Following that, the most we can do is wish you the best of success in taking and passing your state exam. So good luck!!

CT-RELEP's testing practice section consists of ten national practice tests, five state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews - which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in

the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Connecticut real estate exam. So good luck!!
