Paging Dr. Cupid Harlequin  
 Dr. Feelgood is alpha AF with a deep, growly voice, a giant stethoscope and a bedside manner that makes me want more. Summer's the sweetest thing to ever step into my exam room. She was hit by a car, but at the hands of a skilled physical therapist, even the most unlikely paraplegics can learn to walk again. After all, my nickname's Dr. Feelgood for a reason. They say that I've got talented hands ... .. and a talented something else too. If a woman isn't shaking and screaming by the end of our physical therapy sessions, then I'm the one who's come up short. It's a good thing I give a

hundred and ten percent to my job every single day because when Summer Ames is wheeled in for the first time, there's only one thing on my mind: Walk to me, sweetheart. Run to me, baby. I can make you feel so good ... .. that you never stop coming to me again and again. This alpha AF, possessive male is worth every steamy session at the gym because he works miracles on the patients in his care. Strap yourself in for a mouthwatering ride and let yourself enjoy the exam. Reader beware. You might want your own stethoscope for a dose of fun. As always, my books end with an HEA, with no cheating and no cliffhangers.

She pulled the skirt up over her long legs and zipped it on the side. "It barely covers my butt." She looked around, but there were no mirrors inside the little room. She buttoned the blouse which fit snugly over her large breasts. She opened the top drawer and pulled out a pair of stockings that looked like something from the 1950s. They went to her mid thighs and Luci had no idea what to do next. She knew they had to snap somewhere, but where? She slowly and carefully walked to the door, holding the stockings in place. She opened the door and Dr. Haskin began to walk off. "Let's go, Luci." "I'm not ready," she blurted out. The doctor turned on his heel and noticed the young girl struggling with the sheer stockings and he cleared his throat to keep from laughing. "Go back into the room, Luci. I will show you."

The COVID-19 pandemic has led to a host of critical reflections about discourse practises dealing with public health issues. Situating crisis communication at the centre of societal and political debates about responses to the pandemic, this volume analyses the discursive strategies used in a variety of settings. Exploring how crisis discourse has become a part of managing the public health crisis itself, this book focuses on the communicative tasks and challenges for both speakers and their public audiences in seven areas: - establishment of discursive and political authority - official governmental and expert communication to the public - public understanding of government communication - legitimization of public health management as a 'war' - judging and blaming a collective other - cross-national comparison and rivalry - empathy and encouragement Covering global discourses from Asia, Europe, the Middle East, North and South America, and New Zealand, chapters use corpus-based data to cast light on these issues from a variety of languages. With crisis discourse already the object of fierce national and international debates about the appropriateness of specific communicative styles, information management and 'verbal hygiene', *Pandemic and Crisis Discourse* offers an authoritative intervention from language experts.
