The need for this book has arisen from demand for a current text from our students in Petroleum Engineering at Imperial College and from post-experience Short Course students. It is, however, hoped that the material will also be of more general use to practising petroleum engineers and those wishing for an introduction into the specialist literature. The book is arranged to provide both background and overview into many facets of petroleum engineering, particularly as practised in the offshore environments of North West Europe. The material is largely based on the authors' experience as teachers and consultants and is supplemented by worked problems where they are believed to enhance understanding. The authors would like to express their sincere thanks and appreciation to all the people who have helped in the preparation of this book by technical comment and discussion and by giving permission to reproduce material. In particular we would like to thank our present colleagues and students at Imperial College and at ERC Energy Resource Consultants Ltd. for their stimulating company, Jill and Janel for typing seemingly endless manuscripts; Dan Smith at Graham and Trotman Ltd. for his perseverance and optimism; and Lesley and Joan for believing that one day things would return to normality. John S. Archer and Colin G. Wall 1986 ix Foreword Petroleum engineering has developed as an area of study only over the present century. It now provides the technical basis for the exploitation of petroleum fluids in subsurface sedimentary rock reservoirs.

"Each night, as twilight descends on cities and towns across Nevada, the desert night sky is lit with the glow of hundreds of neon signs. Whether the signs are a part of the shimmering onslaught of Las Vegas's Glitter Gulch, a lone cowboy beckoning travelers on Interstate 80, or a simple martini glass on a tavern sign, they are an element of Nevada's cultural heritage. After all, in the words of one veteran sign maker, "Neon and flashing lights mean Nevada. Without neon and flashing lights, you might as well be anywhere."" "In the early 1970s, Swan and Laufer set out to chronicle this cultural heritage in photographs as a means of preserving an art form that was at the time fast dying out. Neon Nevada combines these photographs, many of signs no longer in existence, with newer photos of signs installed during the recent renaissance in neon. It is a lighthearted, charming record of images from the generic to the unforgettable." "The accompanying text provides a brief history of neon sign-making, from its beginnings in Paris to its spread across the United States, pointing out in particular how it found its perfect setting in Nevada. The text is also a captivating description of how Swan and Laufer came to fall in love with neon - a love that the reader will grow to share - and of their travels in search of signs to immortalize."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Nonprofit leadership is messy Nonprofits leaders are optimistic by nature. They believe with time, energy, smarts, strategy and sheer will, they can change the world. But as staff or board leader, you know nonprofits present unique challenges. Too many cooks, not enough money, an abundance of

passion. It's enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn't understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who's a star in her sector but a difficult boss... And yet, many nonprofits do thrive. Joan Garry's *Guide to Nonprofit Leadership* will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a powerhouse board Create an impressive and sustainable fundraising program Become seen as a 'workplace of choice' Be a compelling public face of your nonprofit This book will renew your passion for your mission and organization, and help you make a bigger difference in the world.

Indian Classical Dance and the Making of Postcolonial National Identities explores what happens when a national-cultural production is reproduced outside the immediate social, political and cultural context of its origin. Whereas most previous studies have analysed Indian classical dance in the context of Indian history and culture, this volume situates this dance practice in the longstanding transnational linkages between India and the UK. What is the relation between the contemporary performance of Indian classical dance and the constitution of national, diasporic and multicultural identity? Where and how does Indian dance derive its productive power in the postcolonial moment? How do diasporic and nationalist representations of Indian culture intersect with depictions of British culture and politics? It is argued that classical Indian dance has become a key aspect of not only postcolonial South Asian diasporic identities, but also of British multicultural and transnational identity. Based on an extensive ethnographic study of performances of Indian classical dance in the UK, this book will be of interest to scholars of anthropology, sociology, South Asian studies, Postcolonial, Transnational and Cultural studies, and Theatre and Performance studies.
