Chapters: Volkswagen Jetta, Mercedes-Benz C-Class, Honda Accord, Holden Commodore, Chevrolet Impala, Chevrolet Caprice, Holden VE Commodore, Ford Falcon (Australia), Rambler American, AMC Ambassador, Citroen XM, Mazda Familia, Dodge Dart, Pontiac GTO, Ford Escort (Europe), Ford

Mondeo, AMC Hornet, Chevrolet Chevy II / Nova. Excerpt: The Volkswagen Jetta is a compact car, produced by German automaker Volkswagen Group for the Volkswagen Passenger Cars marque since 1979. Positioned to fill a saloon/sedan niche above the firm's Golf hatchback offering, it has been marketed over six generations variously as the Atlantic, Fox, Vento, Bora, City Jetta, Jetta City, GLI, Jetta, and Sagitar. The Jetta was originally adapted by adding a conventional trunk to the Golf hatchback, and some distinctive styling (usually the front end, and sometimes slight interior changes). It has been offered in two- and four-door saloon (sedan), and

five-door estate (station wagon) versions - all as five-seaters. As of 2005, over 6.6 million cars have been sold worldwide, over one-third in the United States alone. Since the original version in 1980, the car has grown in size and power with each successive generation. By mid 2011, almost 10 million Jettas have been produced and sold all over the world. The Jetta nameplate is a reference to the Atlantic 'jet stream', reflecting the period in Volkswagen's history when it named its vehicles after prominent winds. These also included the Volkswagen Passat (after the German word for trade wind), Volkswagen Bora (after bora), and Volkswagen

Scirocco (after sirocco). Although the Golf had reached considerable success, in the North American markets, Volkswagen observed that the hatchback body style lacked some of the appeal to those who preferred the traditional three-box configuration. The styling of the 1970...

Mercedes-Benz C-Class is a compact executive car produced by Mercedes-Benz.

Introduced in 1993 as a replacement for the 190 (W201) range, the C-Class was the smallest model in the marque's lineup until the arrival of the A-Class in 1997. The C-Class is built at Mercedes-Benz factories in Sindelfingen and Bremen, Germany as well as numerous satellite factories in other countries. The very first C-Class (W202) sedan was produced on 1 June 1993, and the first second generation (W203) rolled off the assembly line on July 18, 2000. The most recent third generation (W204) launched in 2007. Although originally sold in sedan

and station wagon body styles, the W203 series in 2000 debuted a coupe version that later when facelifted diverged into the Mercedes-Benz CLC-Class. The CLC-Class remained in production through to 2011 when replaced by a new W204-based C-Class coupe. All three generations of C-Class have also formed the basis of Mercedes-Benz's larger mid-size coupes: the CLK-Class (C208 and C209) and E-Class (C207) coupes. In October 1986, three years into W201 (190)'s production run, work began on a successor. Design work began in 1987, with the final design being selected in late 1988, and patented on December 19, 1990. In May 1993, the first generation W202 C-

Class was introduced as a replacement for the 190. The C-Class sedan was the company's entry-level model up until 1997, when Mercedes launched the A-Class. Styling themes were carried over from the previous W201 series, but the new series had a...
