My Revision Notes: Tomorrow's Geography for Edexcel GCSE Specification A Hodder Education

A Dictionary of Human Geography is a brand new addition to Oxford's Paperback Reference Series, offering over 2,000 clear and concise entries on human geography terms. From basic terms and concepts to biographical entries, acronyms, organisations, and major periods and schools in the history of human geography, it provides up-to-date, accurate, and accessible information. It also includes entry-level web links that are listed and regularly updated on a dedicated companion website. This dictionary is a reliable reference for students of human geography and ancillary subjects, for researchers and professionals in the field, and for interested generalists.

How up-to-date is your geographical thought? Are parts of your curriculum becoming tired and out-dated? Effective Innovation in the Secondary Geography Curriculum will help training and practising secondary school teachers understand how to evaluate and refresh their curriculum in order to ensure that what they teach is relevant, topical and creative. Considering the latest developments in both the school geography curriculum and the field of geography as an academic discipline, this exciting new book explores how geography teaching and learning can be developed to engage secondary school pupils and better reflect contemporary society. Illustrated throughout with ideas and practical examples of how to update your curriculum easily and effectively, key topics covered include: Understanding curriculum theory and development; Auditing and developing your own dynamic, interactive curriculum; Critiquing textbooks and resources to ensure relevance; Constructing and analysing schemes of work; Incorporating the latest developments in the field into your teaching; How to create innovative, enduring curricula for human, physical and environmental

geographies. Providing insights into the latest thinking in geography in a concise and accessible manner, *Effective Innovation in the Secondary Geography Curriculum* will ensure motivating, lively and successful geography teaching and learning.

Debates in Geography Education encourages student and practising teachers to engage with and reflect on key issues, concepts and debates in their specialist subject teaching. It aims to enable geography teachers to reach their own informed judgements and argue their point of view with deeper theoretical knowledge and understanding. Expert editors and contributors provide a balance of experience and perspectives and offer international, historical and policy contexts, evidence informed classroom debates and a glimpse of the subject's expanding horizons. Debates considered include: what constitutes knowledge in geography? constructing the curriculum; how do we link assessment to making progress in geography? the contribution of fieldwork and outdoor experiences; technology and media; how we use Geographical Information; how geography contributes to 'global learning'; sustainable development and geography education. The comprehensive, rigorous coverage of these key issues, together with carefully annotated selected further reading, reflective questions and a range of specific web-based resources, will help support shape your own research and writing. *Debates in Geography Education* is a source of knowledge, experience and debate that will be essential reading for all students studying at Masters level, practising teachers who want to develop a better understanding of the issues that shape their practice, and Education Studies students considering in-depth subject teaching.
