Set in the future when “firemen” burn books forbidden by the totalitarian “brave new world” regime.

Daughter of the Moon Goddess Simon and Schuster

“Nineteen Eighty-Four: A Novel”, often published as “1984”, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime.

Thematically, “Nineteen Eighty-Four” centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of

the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg’s beloved classic and Newbery Medal–winning novel *From the Mixed-Up Files of Mrs. Basil E. Frankweiler*. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

Dear Mr. Henshaw Schiffer Publishing

Wuthering Heights is the name of Mr. Heathcliff's dwelling. "Wuthering" being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date "1500" and the name "Hareton Earnshaw." I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at

the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here Ôthe houseÕ pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

Over 100 pages of tattoo flash feature Brian Kelly's innovative cut-up method, which splices and interweaves traditional flash motifs into new and unexpected designs. Inspired by Dadaist literary technique and borrowing from the spirit of collage, these brush-painted and spit-shaded designs are traditional in style and method but wholly original in their combinations and juxtapositions. Traditional images--roses and ships, eagles and daggers, hearts and skulls--become dynamic and surprising, nearly dreamlike and yet deeply familiar. The collection grew out

of Kelly's MFA thesis, which he continued to refine at The Rose of No Man's Land tattoo studio in Berlin. This is an excellent inspirational resource for tattoo artists, apprentices, and anyone interested in traditional or neo traditional tattoo style.

Flash from the Bowery Simon and Schuster

Between these pages are images of the original acetate rubbings from Charlie Wagner's turn of the 20th century tattoo shop, The Black Eye Barbershop, in the Bowery at Chatham Square in New York. This is the only known art that has survived from this shop, where Samuel J. O'Reilley's modern-day electric tattoo machine was born and patented. The imagery of this classic flash preserves the origins of American tattoos, when tattoo art was transferred to the client from these templates via an acetate stencil. Everything was done by hand until O'Reilley's electrified tattoo machine changed history. This rich heritage of folk art has more than 900 individual pieces of flash that provide commentary on the shop's clientele and reveal some of the social, economic, and political ideas of the time. Including nautical themes, Asian imagery, flowers, boxers, circus characters, and plenty of girls, this is an exciting collection of early American flash and a necessary book for the tattoo artist, aficionado, and student.

Vintage Tattoos Schiffer Publishing Limited

Vintage Tattoo Flash is a one-of-a-kind visual exploration of the history and evolution of tattooing in America. Alusciuous, offset-printed, hardcover tome-a beautiful and serious addition to the understanding of one of the world's oldest and most popular art forms. Electric tattooing as we know it today was invented in New York City at the turn of the 19th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as "traditional tattooing" was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheets of designs posted in tattoo shops for customers to select from. Painted and repainted, stolen, traded, bought and sold, these sheets are passed between artists through one channel or another, often having multiple useful lives in a variety of shops scattered across time and geography. The utility of these original pieces of painted art has made it so that original examples can still be found in use or up for grabs if you know where to look. *Vintage Tattoo Flash* draws from the personal collection of Jonathan Shaw-renowned outlaw tattooist and author-and represents a selection of over 300 pieces of flash from one of the largest private collections in existence. *Vintage Tattoo Flash* spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown.
