This book is primarily designed for students preparing for various competitive examinations. It will also be helpful for those preparing for midterm exams in schools or universities. The aim of this book is twofold: first, to help the students preparing for competitive examinations, seeking admission to universities or schools, or prepare for job interviews. Second, it will also be helpful for those studying CURRENT AFFAIRS-2017. This book contains more than 5149 questions from the core areas of CURRENT AFFAIRS-2017. The questions are grouped chapter-wise. There are total 2 chapters, 0 sections and 5149+ MCQ with answers. This reference book provides a single source for multiple choice questions and answers in CURRENT AFFAIRS-2017. It is intended for students as well as for developers and researchers in the field. This book is highly useful for faculties and students. One can use this book as a study guide, knowledge test questions bank, practice test kit, quiz book, trivia questions . . . etc. The strategy used in this book is the same as that which mothers and grandmothers have been using for ages to induce kids in the family to sip more soup (or some other nutritious drink). The children are told that some cherries (their favourite noodles or cherries) are hidden somewhere in the bowl, and

that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious soup. Now it is your choice to drink the nutritious soups or not!!!
