Six-level general English course John Wiley & Sons

The Workbook offers plenty of extra practice, revision, and reviews. Mirroring the Student's Book content, with the same clear structure, it provides extra reading and writing practice opportunities for both weaker and stronger students. The Writing Bank at the back of the book gives a quick guide to text types, with model structures and key language as well as exam strategies, plus a Functions Bank for functional phrases for speaking and writing. There is plenty of exam practice in the Get Ready for your Exam sections and these, along with the Self-Check pages after each unit and the review sections at the back of the books, allow students and their teachers to keep track of their progress as they work towards their exams. The accompanying Audio CD offers students a huge amount of listening practice. There are audio recordings for tasks in every lesson (not only for the Vocabulary & Listening lessons).

SLA Research and Materials Development for Language Learning is the only book available to focus on the interaction between second language acquisition theory and materials development for language learning. It consists of contributions written by experts in SLA, experts in materials development, researchers who have expertise in both fields, and introductions and conclusions by the editor. The book is organized into four major sections – position statements; materials driven by SLA theory; evaluations of materials in relation to SLA theory; and proposals for action – that

offer a diverse range of perspectives while maintaining a cohesive and comprehensive overview on the subject. This book is ideal for post-graduate courses in applied linguistics and second language acquisition and for researchers interested in the relationship between SLA and materials development.

Materials development has become much more important in the field of TESOL in the last twenty years: modules on materials development are now commonplace on MA TESOL courses around the world. The overall aim of the book is to introduce readers to a wide range of theoretical and practical issues in materials development to enable them to make informed and principled choices in the selection, evaluation, adaptation and production of materials. The book aims to show how these choices need to be informed by an awareness of culture, context and purpose.

Headway is for students who want to use English accurately and fluently, and to communicate with ease in both social and everyday situations. This latest addition to the Headway family offers the beginner and false beginner all the best features of the Headway package plus the newer features of 'Everyday English' sections, an integrated vocabulary syllabus, and revision and self-access sections after every four units.

New Headway English Course takes the successful Headway series into an exciting new era. It introduces new features to challenge adult and young adult students and ensure that learning English is interesting and motivating. The course combines the best of traditional methods with more recent approaches, to help students use English both accurately and fluently. Learners at the upper-intermediate level require a different approach. It is no longer appropriate to examine language items in isolation. In New Headway Upper-intermediate, grammatical areas are treated in greater depth so that students begin to perceive the systems that underlie the language. This new upper-intermediate course provides around 120 hours of language learning. It follows on from New Headway Intermediate, and together with Headway Elementary, Headway Pre-intermediate, and Headway Advanced, provides a fully comprehensive language teaching series. Key features:

- New, universal topics selected from a wide variety of sources, including authentic listening texts.
- In-depth treatment of grammar: Each unit starts with a Test your grammar section, followed by Language in context, where students work out rules through Grammar questions. The Practice Bank provides a choice of wide-ranging exercises and the Grammar Reference gives detailed rules of form and use.
- The grammar of spoken English is examined, with work on areas such as being polite, linking and commenting adverbs, exaggeration and understatement, and lexis in discourse.
- Thorough skills syllabus: All four skills are developed systematically and integrated through related tasks.
- Well-defined lexical syllabus with work on systems such as collocation, binomials, homonyms, and compounds.
- Pronunciation practice is integrated at appropriate points throughout the units.
- Everyday English is practised in the Postscript section. In addition to the Student's Book, there is a Teacher's Book with extra photocopiable activities, two Class Cassettes, a Workbook, and an optional Workbook Cassette. This level is supplemented by Headway Upper-intermediate Video and New Headway Upper-intermediate Pronunciation.

The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease

Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

SuperJam is a delicious range of jams and marmalades created by young entrepreneur Fraser Doherty. They're 'super' because they're made with 'superfruits', such as cranberries and blueberries, and fruit juice rather than sugar, meaning they're healthier than your average pot of jam. Fraser's cookbook is a juicy celebration of all things jammy. As well as being packed full of recipes for jams, marmalades, chutneys and jellies, the book offers more unusual ideas for spreads, such as Banana and Rum Curd, Dulce de Leche and Chilli Jam. And if for any reason you do have any leftover pots of preserves, it also contains over 25 ideas for how to turn your creations into irresistible puddings, from Bakewell Tart and Orange and Passion Fruit Trifle to Banoffee Cupcakes and Strawberry and White Chocolate Mousse. Exquisitely designed and lavishly photographed, The SuperJam Cookbook will be a lovely gift or simply the perfect way to indulge your love of one of life's greatest comfort foods.
