### **Economics** Nelson Thornes

A stunning coming-of-age novel about one boy's mystical bond to the sea. "[A] graceful and inventive first novel." -The New York Times Book Review "The fertile strangeness of marine tidal life becomes a subtly executed metaphor for the bewilderments of adolescence in this tender and authentic coming-of-age novel." - Publishers Weekly "As crisp and clean as a cool dip into the water, and just about as refreshing." -Entertainment Weekly "Move over, Holden Caulfield; here's Miles. . . . An uncommon and uncommonly good coming-of-age novel." -Chicago Tribune One moonlit night, thirteen-year-old Miles O'Malley sneaks out of his house and goes exploring on the tidal flats of Puget Sound. When he discovers a rare giant squid, he instantly becomes a local phenomenon. But Miles is really just a kid on the verge of growing up, infatuated with the girl next door, worried that his parents will divorce and fearful that everything, even the bay he loves, is shifting away from him.

Edexcel Chemistry CRC Press

This book aims to cover all the GCSE Physics material needed to meet the specifications of the examining boards Edexcel, AQA, WJEC and OCR (both 21st Century Science and Gateway) both for single and double awards. The content also covers the additional topics necessary for the Physics GCSE single award. It is the third book in the series following 'Biology at a Glance' and 'Chemistry at a Glance' and it encourages learners to use a mind mapping approach to revision. Just like the other books in the series, each page contains clear annotated illustrations that will help the reader to assimilate the facts quickly and commit them to memory. The book covers force and energy, energy and its transfer (including waves, electrical and thermal energy), electromagnetism and radioactivity. It goes on to describe a wide range of the practical applications of physics and concludes with material on our place in the universe. To comply with the latest GCSE specifications, 'How Science Works' permeates all aspects of the book which also provides questions on all the topics covered, to reinforce skills and understanding.
