Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangka. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Learn how to sketch simple yoga 'stick figures' to capture and plan your yoga sequences with this simple, step-by-step system that can be quickly learned, even without any drawing or sketching skills. Also available as an e-book: www.yoganotes.net The first part of the book explains the basic principles of sketching and constructing the yoga stick figures and combining them into

sequences. The second part contains step-by-step instructions for sketching over 80 of the most common asanas and their variations. Who is this book for? For Yoga Teachers & Coaches: If you teach yoga classes or work with your own private clients, sketching is a great way to plan out sequences and practice plans in a visual way. You can use them as a visual overview during class (if you haven't fully memorised the sequence yet). They also make great handouts for your students after a workshop or as personalised practice plans for your one-on-one clients. For Teacher Training Attendees: If you are learning to be a yoga teacher there is a lot of information to take in and to process. Taking visual notes and using sketches to capture the details about postures, alignment and anatomy will help you to get the most out of your training. The notes you create will be clearer, more engaging and actually fun to look at and revise again later. For Students & Practitioners: If you study or practice yoga, you can sketch out your favourite sequences to use as a guide during your home practice or for when you are travelling. Sketch out that great class you attended at your yoga studio or the nice one you found on YouTube. The sketched overview will be the perfect cheat sheet to keep by your mat during your own practice.

It is taken for granted in the knowledge economy that companies must employ the most talented performers to compete and succeed. Many firms try to buy stars by luring them away from competitors. But Boris Groysberg shows what an uncertain and disastrous practice this can be. *Chasing Stars* offers profound insights into the fundamental nature of outstanding performance. It also offers practical guidance to individuals on how to manage their careers strategically, and to companies on how to identify, develop, and keep talent. --Publisher's description.

NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER "Sprint offers a transformative formula for testing ideas that works whether you're at a startup or a large organization. Within five

days, you'll move from idea to prototype to decision, saving you and your team countless hours and countless dollars. A must read for entrepreneurs of all stripes." --Eric Ries, author of *The Lean Startup* From three partners at Google Ventures, a unique five-day process for solving tough problems, proven at more than a hundred companies. Entrepreneurs and leaders face big questions every day: What's the most important place to focus your effort, and how do you start? What will your idea look like in real life? How many meetings and discussions does it take before you can be sure you have the right solution? Now there's a surefire way to answer these important questions: the sprint. Designer Jake Knapp created the five-day process at Google, where sprints were used on everything from Google Search to Google X. He joined Braden Kowitz and John Zeratsky at Google Ventures, and together they have completed more than a hundred sprints with companies in mobile, e-commerce, healthcare, finance, and more. A practical guide to answering critical business questions, *Sprint* is a book for teams of any size, from small startups to Fortune 100s, from teachers to nonprofits. It's for anyone with a big opportunity, problem, or idea who needs to get answers today.

Thrive in the new economy by leading ahead of the next evolution Reimagining Work is the business leader's guide to surviving—and thriving—in the new on-demand economy. As the business and workplace environments evolve, traditional management strategies are becoming obsolete; the skilled workforce demands flexibility and more control over their work—things that the major corporations repeatedly fail to offer. Is it any wonder that the best and brightest talent is increasingly moving toward smaller companies with alternative management structures? Companies like Uber, Lyft, Handy, and Task Rabbit? These businesses have seen major success by attracting the right people—by giving them what they want. As the shift continues, businesses will need to change the way they recruit, develop, and train talent. This book shows you how to restructure and reconfigure your current strategy toward one that will help your business not just survive, but grow stronger in this new environment by offering what top talent demands. Niche spaces like transportation and general labor may have catalyzed the movement toward on-demand, but their influence is spreading and traditional businesses must adapt or die. This book shows you how to turn the shift into an asset for your company by leading through change for the better. Reconsider your current talent sourcing strategies Update your team development and training programs Build a flexible workforce that thrives in the "on-demand" economy Develop your business to succeed amidst the changing business paradigm Growth is more than just expansion; it's also maturation, adaptation, and evolution. Our economy is on the cusp of a seismic shift, and smart businesses will implement change early before the obsolete start falling behind. Reimagining Work gives you actionable guidance for staying ahead of the curve.

BUSINESS STRATEGY. "The 4 Disciplines of Execution" offers the what but also how effective execution is achieved. They share numerous examples of companies that have done just that, not once, but over and over again. This is a book that every leader should read! (Clayton Christensen, Professor, Harvard Business School, and author of "The Innovator's Dilemma.") Do you remember the last major initiative you watched die in your organization? Did it go down with a loud crash? Or was it slowly and quietly suffocated by other competing priorities? By the time it finally disappeared, it's likely no one even noticed. What happened? The whirlwind of urgent activity required to keep things running day-to-day devoured all the time and energy you needed to invest in executing your strategy for tomorrow. "The 4 Disciplines of Execution" can change all that forever.
