Moisture control is fundamental to the proper functioning of any building. Controlling moisture is important to protect occupants from adverse health effects and to protect the building, its mechanical systems and its contents from physical or chemical damage. Yet, moisture problems are so common in buildings, many people consider them inevitable. Excessive moisture accumulation plagues buildings throughout the United States, from tropical Hawaii to arctic Alaska and from the hot, humid Gulf Coast to the hot, dry Sonoran Desert. Between 1994 and 1998, the U.S. Environmental Protection Agency (EPA) Building Assessment Survey and Evaluation (BASE) study collected information about the indoor air quality of 100 randomly selected public and private office buildings in the 10 U.S. climatic regions.

Before there was *Ember*...there was *Yonwood*. Discover the prophecy that started it all in this prequel to the *The City of Ember*—a modern-day classic with over 4 MILLION copies sold! Nickie will grow up to be one of the first citizens of the city of Ember. But for now, she is a girl who has just moved to the town of *Yonwood*. There, she discovers a place full of suspicion, where one citizen's visions of fire and destruction have turned everyone against each other. Eager to take her mind off her father's absence as he works on a mysterious government project, Nickie reads her great-grandfather's peculiar journals, spies on a reclusive neighbor who studies the heavens, and meets a strange boy who is fascinated with snakes— all while keeping an eye out for trouble. But is it already too late to avoid

**The Complete Book of Clean** Random House Books for Young Readers  
The eight journey of nine in the *And There I Was* series-Ethiopia, cradle of all mankind-took place in 2004. Come along and recount the incredible history of a country older than time itself-a country of orphaned children steeped in Christianity. Trek the Simiens, a geological creation that surpasses even the imagination of God, where the lion-like baboon presides. Travel to an island monastery on Lake Tana where the Arc of the Covenant once resided and hold council with a priest who has spent his entire life studying the origins and meaning of Christianity-a man perhaps more knowledgeable than any other who serves as custodian of an underground vault of parchment texts predating

Christ. Witness local women performing the world's most seductive dance, the *Iskista*, and see incredible churches hewn out of the earth's bedrock in Lalibela, the Jerusalem of Africa. Meet the children of Ethiopia and have them guide you by the hand to the headwaters of the Nile. Share sugar cane and song with the raincloud Dorze people and roam the shores and waters of Lake Chomo amongst the largest crocodiles in the world. Chew "qat," sample "tej" or honey wine, the nectar of the Gods and gorge on "injera" made from the national grain, "teff."

**The Inside Story** Yearling

A soul-wrenching tale of one family falsely accused of criminal tax evasion. Nathan and Elly arrived in Canada in 1973, after travelling five years on horseback through the three Americas. They became Canadian citizens, raised a family and carved a ranch out of the wilderness in northern British Columbia with Belgian draft horses. In 2006, inexplicably, the family was swept up in the Canada-wide wave of terror originating with the Harper government, intended to spread fear among small business owners, and, through fear, taxpayer compliance. And to divert attention from the off-shore tax havens of the rich. Trail hardened and resilient, Nathan and Elly would not allow themselves to become victims of a bully. They launched a civil lawsuit against the tax agency that attacked them without merit, mercy, or fact. They acted as their own lawyers. The battle lasted ten years. This small book has a big message: when you have the guts to stand up for what you believe, no one has power over you!

The Green Halo is a highly readable introduction to the vast field of contemporary ecological thought. It is a basic education in environmental philosophy and a welcome propaedeutic for understanding the most crucial problem facing humankind in the coming century: How can humans live on this earth so that they do not destroy the preconditions for their own existence?  
*The Diamond of Darkhold* Hearst Home & Hearst Home Kids

Introducing a new star of her generation, an electric debut story collection about mixed-race and African-American

teenagers, women, and men struggling to find a place in their families and communities. When Danielle Evans's short story "Virgins" was published in *The Paris Review* in late 2007, it announced the arrival of a major new American short story writer. Written when she was only twenty-three, Evans's story of two black, blue-collar fifteen-year-old girls' flirtation with adulthood for one night was startling in its pitch-perfect examination of race, class, and the shifting terrain of adolescence. Now this debut short story collection delivers on the promise of that early story. In "Harvest," a college student's unplanned pregnancy forces her to confront her own feelings of inadequacy in comparison to her white classmates. In "Jellyfish," a father's misguided attempt to rescue a gift for his grown daughter from an apartment collapse magnifies all he doesn't know about her. And in "Snakes," the mixed-race daughter of intellectuals recounts the disastrous summer she spent with her white grandmother and cousin, a summer that has unforeseen repercussions in the present. Striking in their emotional immediacy, the stories in *Before You Suffocate Your Own Fool Self* are based in a world where inequality is reality but where the insecurities of adolescence and young adulthood, and the tensions within family and the community, are sometimes the biggest complicating forces in one's sense of identity and the choices one makes.

*Moisture Control Guidance for Building Design, Construction and Maintenance* London : Chapman & Hall

Teenage Gerald, who has spent years protecting his fragile half-sister from their abusive father, faces the prospect of one final confrontation before the problem can be solved.

*American Aeronaut* Simon and Schuster Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support

ever-shorter product lives, we may well be shortening the future of our way of life as well.

Conquer the clutter, clean your house and give yourself more time for the good things in life-with this new edition Drowning in clutter, but don't know where to begin? Feeling overwhelmed by a home that's out of control? Help is on hand from the creator of the popular home-management website, OrganizedHome.com. With wit, humor and style, Cynthia Townley Ewer goes about solving the many obstacles of running an orderly home. From how to combat, and stay on top of, the clutter tide, to the most effective tools for, and methods of, cleaning. Plus, pick up tips on the specifics of running an organized home from sections such as food, clothing, surfaces and systems, room to live, and paper handling. Whether you want to know how to tame 'the great white' (fridge, not shark!), or add rhythm to your clothes closet, Cynthia will inform you, entertain you, and very possibly save your sanity along the way.

**Farewell to Manzanar** FriesenPress NATIONAL BESTSELLER • From the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys*: A pandemic has devastated the planet, sorting humanity into two types: the uninfected and the infected, the living and the living dead. After the worst of the plague is over, armed forces stationed in Chinatown's Fort Wonton have successfully reclaimed the island south of Canal Street—aka Zone One. Mark Spitz is a member of one of the three-person civilian sweeper units tasked with clearing lower Manhattan of the remaining feral zombies. Zone One unfolds over three surreal days in which Spitz is occupied with the mundane

mission of straggler removal, the rigors of Post-Apocalyptic Stress Disorder (PASD), and the impossible task of coming to terms with a fallen world. And then things start to go terribly wrong... At once a chilling horror story and a literary novel by a contemporary master, *Zone One* is a dazzling portrait of modern civilization in all its wretched, shambling glory. Look for Colson Whitehead's bestselling new novel, *Harlem Shuffle!*

**Before You Suffocate Your Own Fool Self** Houghton Mifflin Harcourt

The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched

Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.
