This major new interdisciplinary study focuses on the representation of the body in the work of eight of Polynesia's most significant contemporary writers. Drawing on anthropology, psychoanalysis, philosophy, history and medicine, Postcolonial Pacific Writing develops an innovative postcolonial framework specific to the literatures and cultures of this region.

This book examines the role of experts and expertise in the dynamics of globalisation since the mid-nineteenth century. It shows how engineers, scientists and other experts have acted as globalising agents, providing many of the materials and institutional means for world economic and technical integration. Focusing on the study of international connections, Technology and Globalisation illustrates how expert practices have shaped

the political economies of interacting countries, entire regions and the world economy. This title brings together a range of approaches and topics across different regions, transcending nationally-bounded historical narratives. Each chapter deals with a particular topic that places expert networks at the centre of the history of globalisation. The contributors concentrate on central themes including intellectual property rights, technology transfer, tropical science, energy production, large technological projects, technical standards and colonial infrastructures. Many also consider methodological, theoretical and conceptual issues.

Guru English is a bold reconceptualization of the scope and meaning of cosmopolitanism, examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years. The book surveys a specific set of religious vocabularies from South Asia that, Aravamudan argues, launches a different kind of cosmopolitanism into global use. Using "Guru English" as a tagline for the globalizing idiom that has grown up around these religions, Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English-language use. The book demonstrates that cosmopolitanism is not just a secular Western "discourse that results from a disenchantment with religion, but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social move-ments and literary texts. Aravamudan looks at "religious forms of neoclassicism, nationalism, Romanticism, postmodernism, and nuclear millenarianism, bringing together figures such as Swami Vivekananda, Sri Aurobindo,

Mahatma Gandhi, and Deepak Chopra with Rudyard Kipling, James Joyce, Robert Oppenheimer, and Salman Rushdie. *Guru English* analyzes writers and gurus, literary texts and religious movements, and the political uses of religion alongside the literary expressions of religious teachers, showing the cosmopolitan interconnections between the Indian subcontinent, the British Empire, and the American New Age.

This third volume of ASNEL Papers covers a wide range of theoretical and thematic approaches to the subject of intertextuality. Intertextual relations between oral and written versions of literature, text and performance, as well as problems emerging from media transitions, regionally instructed forms of intertextuality, and the works of individual authors are equally dealt with. Intertextuality as both a creative and a critical practice frequently exposes the essential arbitrariness of literary and cultural manifestations that have become canonized. The transformation and transfer of meanings which accompanies any crossing between texts rests not least on the nature of the artistic corpus embodied in the general framework of historically and socially determined cultural traditions. Traditions, however, result from selective forms of perception; they are as much inventions as they are based on exclusion. Intertextuality leads to a constant reinforcement of tradition, while, at the same time, intertextual relations between the new literatures and other English-language literatures are all too obvious. Despite the inevitable impact of tradition, the new literatures tend to employ a dynamic reading of culture which fosters social process and transition, thus promoting transcultural rather than intercultural modes of communication. Writing and reading across borders becomes a dialogue which reveals both differences and similarities. More than a decolonizing form of deconstruction, intertextuality is a strategy for communicating meaning across cultural boundaries.

Football has never seemed so distant from its fans. Many have been alienated by the greed and shameless self-interest of the Premier League, and no one can predict how the global game will look post-pandemic. In *Whose Game Is It Anyway?*, Sunday Times best-selling author Michael Calvin searches for a reason to believe. Written at the height of the Covid-19 crisis, the book is a thought-provoking, deeply personal account of the role sport - and particularly football - plays in everyday life. Part memoir, part manifesto, it takes the reader on a tour of the world's greatest sporting occasions and into its outposts in sub-Saharan Africa, the Amazon Basin and the Southern Ocean. Drawn from Calvin's experience as an award-winning sportswriter, covering every major sports event over 40 years in more than 80 countries, it offers first-hand insight into such icons as Muhammad Ali, Maradona and Sir Bobby Charlton. With settings ranging from a jungle clearing to a township in apartheid South Africa, this is sport as you've never seen it before.

I subtitled this book "Things I Wish I Could Tell My Students." I could have summarized this as "The Truth," because that is what we aren't allowed to tell them. Now we do tell them what happens, and it's the version of it that is made to deceive. Historians vote FDR the greatest president. This is what they are supposed to do. They were not taught that his New Deal destroyed the economy and brought Marxist socialist contradictions into America. My book is intended to reveal the 2+2=5 nature of what we are told about history, ourselves, and Truth.

Modern Irish history was determined by the rise, expansion, and decline of the British Empire. And British imperial history, from the age of Atlantic expansion to the age of decolonization, was moulded in part by Irish experience. But the nature of Ireland's position in the Empire has always been a matter of contentious dispute. Was Ireland a sister kingdom and equal partner in a larger British state? Or was it, because of its proximity and strategic importance, the Empire's mostsubjugated colony? Contemporaries disagreed strongly on these questions, and historians continue to do so. Questions of this sort can only be answered historically: Ireland's relationship with Britain and the Empire developed and changed over time, as did the Empire itself. This book offers the firstcomprehensive history of the subject from the early modern era through the contemporary period. The contributors seek to specify the nature of Ireland's entanglement with empire over time: from the conquest and colonization of the sixteenth and seventeenth centuries, through the consolidation of Ascendancy rule in the eighteenth, the Act of Union in the period 1801-1921, the emergence of an Irish Free State and Republic, and eventual withdrawal from the British Commonwealth in 1948. They alsoconsider the participation of Irish people in the Empire overseas, as soldiers, administrators, merchants, migrants, and missionaries; the influence of Irish social, administrative, and constitutional precedents in other colonies; and the impact of Irish nationalism and independence on the Empire atlarge. The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins, expansion, and decline of the British Empire.This book offers the first comprehensive history of Ireland and the British Empire from the early modern era through the contemporary period. The contributors examine each phase of Ireland's entanglement with the Empire, from conquest and colonisation to independence, along with the extensive participation of Irish people in the Empire overseas, and the impact of Irish politics and nationalism on other British colonies. The result is a new interpretation of Irish history in its wider imperialcontext which is also filled with insights on the origins, expansion, and decline of the British Empire.SERIES DESCRIPTIONThe purpose of the five volumes of the Oxford History of the British Empire was to provide a comprehensive study of the Empire from its beginning to end, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British Empire as a theme in world history. The volumes in the Companion Series carry forward this purpose by exploring themes that were not possible to cover adequately in the main series, and to provide fresh interpretations of significanttopics.

The Great Farini would stride on to the stage and announce, 'Ladies and gentlemen, and now for the highlight of the day, the ferocious Zulus.' The impresario Farini introduced Em-Pee and his troupe to his kind of show business, and now they must earn their bread. In 1885 in a bustling New York City, they are the performers who know the true Zulu dances, while all around them fraudsters perform silly jigs. Reports on the Anglo-Zulu War portrayed King Cetshwayo as infamous, and audiences in London and New York flock to see his kin. What the gawking spectators don't know is that Em-Pee once carried nothing but his spear and shield, when he had to flee his king. But amid the city's squalid vaudeville acts appears a vision that

leaves Em-Pee breathless: in a cage in Madison Square Park is Acol, a Dinka princess on display. For Em-Pee, it is love at first sight, though Acol is not free to love anyone back.

In this book, Dr. Matthew Todd looks into the anecdotal reporting of high numbers of Canadian-born Chinese leaving Western Canadian Chinese churches--what is termed the silent exodus. Some of the fastest-growing Canadian churches are Chinese, yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries. This book recommends solutions towards the retention of Canadian-born Chinese adults in Chinese bicultural churches through empowerment. To address retention, the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations. Todd examines various models and proposed solutions the Chinese church has used to retain its English-speaking congregants, and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton. Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations. He anticipates that this will permit transformational leadership practices that contribute to shalom, community transformation, and lasting congregations.

Spring 1915: World War One rages across Europe, and the British Empire is assailed on all fronts—domestic and abroad. Amidst this bloodbath of nations, where one man's flag is another man's shroud, a British spy is asked to do the impossible: seduce and betray the woman he loves, again.

Only this time betrayal is a two-way street. Jack McColl, a spy for His Majesty's Secret Service, is stationed in India and charged with defending the Empire against Bengali terrorists and their German allies. Belgium, he finds, is not the only country seeking to expel an invader. In England, meanwhile, radical journalist Caitlin Hanley begins the business of rebuilding her life after the execution of her brother—an IRA sympathizer whose terrorist plot was foiled by Caitlin's own ex-lover, the very same Jack McColl. The war is changing everything and giving fresh impulse to those causes—feminism, socialism and Irish independence—which she as a journalist has long supported. The threat of a rising in Dublin alarms McColl's bosses as much as it dazzles Caitlin. If another Irish plot brings them back together, will it be as enemies or lovers?

The influx of Protestant missionaries from Britain to Japan, Korea and Taiwan was an integral part of the British presence in East Asia from 1865 to 1945. Ion draws on both British and Japanese sources to examine the life, work and attitudes of the British missionaries, women and men, who ventured far from their homeland to preach the gospel. He explores the role played by British Protestants as both Christian missionaries and informal ambassadors of their own country and civilization. Through their educational, social and medical work the missionaries helped introduce Western ideas and social pursuits which in turn affected different facets of society and culture in Japan, Korea and Taiwan. The study illustrates how the British missionaries' intent to introduce Christianity was affected by the response of the East Asians to Western ideas. In describing the high drama of the British missionary movement's pioneering days in the late nineteenth century to its persecution during the late 1930s, Ion casts light on a particular, yet important, aspect of the changing tides of Anglo-Japanese relations. This book will ably complement his previous study of Canadian missionaries in East Asia during the same period. Chosen as one of the 15 outstanding books of 1993 for mission studies by the International Bulletin of Missionary Research.

Fiction. A bestseller in New Zealand and winner of the prestigious Commonwealth Prize, Sia Figiel's debut marks the first time a novel by a Samoan woman has been published in the United States. Figiel uses the traditional Samoan storytelling form of su'ifefiloi to talk back to Western anthropological studies on Samoan women and culture. Told in a series of linked episodes, this powerful and highly original narrative follows thirteen-year-old Alofa Filiga as she navigates the mores and restrictions of her village and comes to terms with her own search for identity. Who were the first owners of the music published in England in the sixteenth and early seventeenth centuries? Who went to 'the dwelling house of ... T. East, by Paules wharfe' and bought a copy of Byrd's Psalmes, sonets, & songs when it appeared in 1588? Who purchased a copy of Dowland's First booke of songes in 1597? What other books formed part of their music library? In this survey of surviving books of music published before 1640, David Greer has gleaned information about the books' early and subsequent owners by studying the traces they left in the books themselves: handwritten inscriptions, including names and other marks of ownership - even the scribbles and drawings a child of the family might put into a book left lying about. The result is a treasure trove of information about musical culture in early modern England. From inscriptions and marks of ownership Greer has been able to re-assemble early sets of partbooks, as well as collections of books once bound together. The search has also turned up new music. At a time when paper was expensive, new pieces were copied into blank spaces in printed books. In these jottings we find a 'hidden repertory' of music, some of it otherwise undiscovered music by known composers. In other cases, we see owners altering the words of songs, to suit new and personal purposes: a love-song in praise of Daphne becomes a heartfelt song to 'my Jesus'; and 'Faire Leonilla' becomes Ophelia (perhaps the first mention of this character in Hamlet outside the play itself). On a more practical level, the users of the music sometimes made corrections to printing errors, and there are indications that some of these were last-minute corrections made in the printing-house (a useful guide for the modern editor). The temptation to 'scribble in books' was as irresistible to some Elizabethans as it is to some of us today. In doing so they left us clues to their identity, how they kept their music, how they used it, and the multifarious ways in which it played a part in their lives.

Museums of history and contemporary culture face many challenges in the modern age. One is how to react to processes of Europeanization and globalization, which require more cross-border cooperation and different ways of telling stories for visitors. This book investigates how museums exhibit Europe. Based on research in nearly 100 museums across the Continent and interviews with cultural policy makers and museum curators, it studies the growing transnational activities of state institutions, societal organizations, and people in the museum field such as attempts to Europeanize collection policy and collections as well as different strategies for making narratives more transnational like telling stories of European integration as shared history and discussing both inward and outward migration as a common experience and challenge. The book thus provides fascinating insights into a fast-changing museum landscape in Europe with wider implications for cultural policy and museums in other world regions.

In *Where You Once Belonged*, the bestselling and award-winning novelist of Eventide, Kent Haruf tells of a small-town hero who is dealt an enviable hand--and cheats with all of the cards. Deftly plotted, defiantly honest, *Where You Once Belonged* sings the song of a wounded prairie community in a narrative with the earmarks of a modern American classic. In prose as lean and supple as a spring switch, Haruf describes a high school football star who wins the heart of the loveliest girl in the county and the admiration of men twice his age. Fun-loving, independent, Burdette engages in the occasional prank. But when he turns into a man, his high jinks turn into crimes--with unspeakable consequences. Now, eight years later, Burdette has returned to commit his greatest trespass of all. And the people of Holt may not be able to stop him.
