From Cave to Dolmen

This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples. This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries. It shows how a focus on miracles produces original interpretations of architecture, sanctity and place which will engage architectural historians everywhere. The matter of the baroque miracle extends into a rigorous engagement

with natural history, telluric philosophy, new materialism, theory and philosophy. The study will transform our understanding of baroque art and architecture, sanctity and Naples. Bristling with new archival materials and historical insights, this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality and thus unleash baroque art and architecture as productive and transformational. This book addresses the major critical and interpretive issues of contemporary experimental poetic texts. Critical approaches, historical contexts, and basic concepts are surveyed in two introductory essays, while the study of poetic movements in historical context and the chronological trajectory of production of experimental texts are discussed in the first major segment of the volume, *Experimentation in Its Historical Moment*. The principal topic addressed here is the nature of experimental poetry in revolutionary social contexts. The second major theme, focused upon in the section *Experimentation in the Language Arts*, is that

of language as a vehicle for experiments and cognitive quests, aimed not at the production of truth or social emancipation but at experiential aspects of language and language use. Haroldo de Campos's fragmented poetic prose work *Galàxias* is a highlighted topic of attention, as are poetic and language experiments in Lettrism, Fluxus, sound poetry, and new technological poetics. The development of the basic tenets of Concrete poetry and current critical perspectives on its status in poetical experimentation constitute the basis of the third section of the book, *Concrete and Neo-Concrete Poetry*. The relationship of historical Concrete

poetry to artistic genres is presented, with special emphasis on Brazil and on contemporary visual writing. The section *Memoirs of Concrete*, in the context of oral history, includes retrospective accounts by two of Concrete poetry's most renowned editors. The closing section of this book presents statements on the theory and practice of avant-garde poetry by 22 participants in the Yale Symposium on Contemporary Poetics and Concretism.

This essential book fills a serious gap in the field by synthesizing modern Italian history and placing it in a fully European context. Emphasizing globalization, Italy traces the country's transformation from a land of emigration to one of immigration and its growing cultural importance. Including coverage of the April 2008 elections, this updated edition offers expanded examinations of contemporary Italy's economic, social, and cultural development, a deepened discussion on immigration, and four new biographical sketches. Author Spencer M. Di Scala discusses the role of women, gives ample attention to the Italian

South, and provides a picture of how ordinary Italians live. Cast in a clear and lively style that will appeal to readers, this comprehensive account is an indispensable addition to the field.

 Situated at the crossroads of gender studies, narratology, and cultural studies, this book investigates the impact that the demographic and cultural revolutions of the last century have had on Italian women's life courses and on their literary imaginations. The

geographic and chronological focus is Italy of the 1990s. The study is divided into two parts that represent an ideal progression from contexts to texts.

Catharism was a popular medieval heresy based on the belief that the creation of humankind was a disaster in which angelic spirits were trapped in matter by the devil. Their only goal was to escape the body through purification. Cathars denied any value to material life, including the human body, baptism, and the Eucharist, even marriage and childbirth. What could explain the long

popularity of such a bleak faith in the towns of southern France and Italy? *Power and Purity* explores the place of cathar heresy in the life of the medieval Italian town of Orvieto. Based on extensive archival research, it details the social makeup of the Cathar community and argues that the heresy was central to the social and political changes of the 13th century. The late 13th-century repression of Catharism by a local inquisition was part of a larger redefinition of civic and ecclesiastical authority. Author Carol Lansing shows that the faith attracted not an alienated older nobility but artisans, merchants, popular political leaders, and indeed circles of women in Orvieto as

well as Florence and Bologna. Cathar beliefs were not so much a pessimistic anomaly as a part of a larger climate of religious doubt. The teachings on the body and the practice of Cathar holy persons addressed questions of sexual difference and the structure of authority that were key elements of medieval Italian life. The pure lives of the Cathar holy people, both male and female, demonstrated a human capacity for self-restraint that served as a powerful social model in towns torn by violent conflict. This study addresses current debates about the rise of persecution, and argues for a climate of popular toleration. *Power and Purity* will appeal to historians of society and politics as

well as religion and gender studies.

Drawing on the diverse

critical debates of the

'Beckett and Europe'

conference held in

Reading, UK, in 2015,

this volume brings

together a selection of essays to offer an international response to the central question of what 'Europe' might mean for our understandings of the work of Samuel Beckett. Ranging from historical and archival work to the close interrogation of language and form, from the influences of various national literary traditions on Beckett's writing to his influence on the work of other writers and thinkers, this book examines the question of Europe from multiple vantage points so as to reflect the ways in which Beckett's oeuvre both challenges and enlivens his status as a 'European writer'. With a full introductory chapter examining the challenging implications of the

term 'Europe' in the contemporary period, this volume treats Europe as a recognition of the multiple ways that Beckett's poetry, criticism, prose and drama invite new understandings of the role of history, culture and tradition in one of the most significant bodies of writing of the twentieth century.

Italian Modernism was written in response to the need for an historiographic and theoretical reconsideration of the concepts of Decadentismo and the avant-garde within the Italian critical tradition. Focussing on the confrontation between these concepts and the broader notion of international modernism, the essays in this important collection seek to understand this complex phase of literary and artistic practices as a response to the epistemes of philosophical and scientific modernity at the end of the nineteenth century and in the first three decades of the twentieth. Intellectually

provocative, this collection is the first attempt in the field of Italian Studies at a comprehensive account of Italian literary modernism. Each contributor documents how previous critical categories, employed to account for the literary, artistic, and cultural experiences of the period, have provided only partial and inadequate descriptions, preventing a fuller understanding of the complexities and the interrelations among the cultural phenomena of the time. Art and the

Augustinian Order in Early Renaissance Italy views art in the formative period of the Augustinian Hermits, an order with a particularly difficult relation to art. As a first detailed study of visual culture in the Augustinian order, this book will be a basic resource, making available previously inaccessible material, discussing both well-known and more neglected artworks, and engaging with fundamental methodological questions for pre-modern art and church history, from the creation of religious iconographies to the role of gender in art.

Monteverdi's 1607

version of the legend of Orpheus is arguably the first masterpiece of opera. Composed for the court of Mantua, where Monteverdi was employed, it is very different from his two other surviving operas, which he wrote more than thirty years later to entertain Venetian audiences in the first public opera houses. *Orfeo* was long considered untranslatable, because the text is so closely tied to the music, and the Venetian librettos owe some of their brilliance to Spanish Golden Age theatre. This opera guide is an opportunity to read all three of Monteverdi's stage works together, in Anne Ridler's graceful translations. Contents: Operas contained in this volume: *Orfeo*, *Il*

 Sebbene presente in tutti i Sinottici, Elia occupa un posto di rilievo nel pensiero di Marco, come rivelano i frequenti riferimenti e richiami indiretti. La sua presenza emblematica mostra una deliberata intenzione di Marco ad instaurare un rapporto tra la via di Gesù ed Elia attraverso brani fortemente cristologici. La ricerca si snoda attraverso due percorsi

uno esegetico e l'altro teologico. Il primo è dedicato all'analisi di tutte le conseguenze marciane in cui appare Elia, il secondo si divide tra le peculiarità eliniane che diventa oggetto di esame sia nei contesti biblici premarciani sia nelle fonti della letteratura intertestamentaria, qumranica, talmudica e rabbinica; viene individuata anche la funzione che Elia ricopre all'interno della strategia narrativo-teologica di Marco.

This edited volume is the first to propose new readings of Italian and transnational female-authored texts through the lens of Trauma Studies.

Illuminating a space that has so far been left in the shadows, *Trauma Narratives in Italian and Transnational Women's Writing* provides new insights into how the trope of trauma shapes the narrative, temporal and linguistic

dimension of these works. The various contributions delineate a landscape of female-authored Italian and transnational trauma narratives and their complex textual negotiation of suffering and pathos, from the twentieth century to the present day. These zones of trauma engender a new aesthetics and a new reading of history and cultural memory as an articulation of female creativity and resistance against a dominant cultural and social order.

In this magisterial two-volume book, Pier Luigi Tucci offers a comprehensive examination of one of the key complexes of Ancient Rome, the Temple of Peace.

Based on archival research and an architectural survey, his research sheds new light on the medieval, Renaissance, and Baroque transformations of the basilica, and the later restorations of the complex. Volume 1 focuses on the foundation of the complex under Vespasian until its restoration under Septimius Severus and challenges the accepted views about the ancient building. Volume 2 begins with the remodelling of the library hall and the construction of the rotunda complex, and examines the dedication of the Christian Basilica of SS Cosmas and Damian. Of interest to scholars in a range of topics, The Temple of Peace in

Rome crosses the boundaries between classics, archaeology, history of architecture, and art history,

through Late Antiquity, the Middle Ages, and the early modern period.
