Early Poems, 1935-1955 New Directions Publishing
Born in Mexico City in 1914, writer, poet, and diplomat Octavio Paz won the Nobel Prize for Literature in 1990, eight years before his death in 1998. *The Writing in the Stars* explores Paz's life and ideas by establishing a dialogue between the structure and recurring images of his major poems and the ideas of Carl Jung. Although other literary critics have pointed to Jungian concepts in Paz, a comprehensive study on the subject has yet to be undertaken. Rodney Williamson takes up this challenge, adopting

a Jungian perspective to explore successive phases of Paz's poetry. Williamson illustrates how archetypal images infuse Paz's early poetry and his surrealist period and shows how the circular structure of Paz's longer poems, such as 'Piedra de sol' and 'Blanco,' are based on the Eastern sacred circle or mandala, a major archetype of psychic wholeness in Jung. He argues that a grasp of the psychological importance of Jung's archetypes is essential to understanding the various syntheses of creative truth and existence sought by Paz at different defining moments of his career as a poet. *The Writing in the Stars* will prove fascinating to anyone interested in Latin-American literature, Jungian psychology, or critical theory.

A Study Guide for Octavio Paz's "Fable" New Directions Publishing

Octavio Paz: The Mythic Dimension is a study of myth and mythmaking in the eminent Mexican writer's poetry based on an archetypal analysis of the central theme of the dialectic of solitude and communion. The author also attempts to illustrate Paz's mission to redeem the positive values of biblical, classical, pre-Columbian, and oriental mythologies by re-creating and enriching them in new forms and meanings more appropriate to a contemporary world view. Poems are selected from both early and recent collections to illustrate the continuity of Paz's works; quoted passages are in the original Spanish with English translations. In addition to mythological sources, significant contributions of certain literary sources to Paz's thought and poetry are also discussed to demonstrate his place in the modern literary tradition.

On Poets and Others Gale, Cengage Learning

"Since the Treaty of Guadalupe Hidalgo in 1848, the United

States and Mexico have been inextricably linked. The blending of the American and Mexican cultures has enriched both nations.

Through a partnership to promote wider access to literary voices of Mexican artists in the U.S. and American writers in Mexico, the National Endowment for the Arts, the United States Embassy in Mexico, and the National Autonomous University of Mexico have joined together to support a program of anthology publications and public outreach activities. The two-volume set—*Lineas conectadas: nueva poesia de los Estados Unidos* and *Connecting Lines: New Poetry from Mexico*—is the first installment in the series. With definitive translations by leading writers and scholars, these dual volumes offer a glimpse into the beauty of the Mexican and the American experience through the microscopic lens of poetry. Whether read for personal pleasure or classroom study, *Lineas conectadas* and *Connecting Lines* are a must-read for anyone curious of our ever-increasing multicultural identity."--Publisher's website.

The Collected Poems of Octavio Paz 1957-1987 Edited and Translated by Eliot Weinberger Rutgers University Press

Now in paperback, the definitive, life-spanning, bilingual edition of the poems by the Nobel Prize laureate Octavio Paz is the first retrospective collection of Paz's poetry to span his entire writing career from his first published poem, at age seventeen, to his magnificent last poem. This landmark bilingual edition contains many poems that have never been translated into English before, plus new translations based on Paz's final revisions. Assiduously edited by Eliot Weinberger—who has been translating Paz for over forty years—*The Poems of Octavio Paz* also includes translations by the poet-luminaries Elizabeth

Bishop, Paul Blackburn, Denise Levertov, Muriel Rukeyser, and Charles Tomlinson. Readers will also find Weinberger's capsule biography of Paz, as well as notes on many poems in Paz's own words, taken from various interviews he gave throughout his long and singular life.

Aguila O Sol? New Directions Publishing

The undisputed intellectual leadership of Octavio Paz, not only in Mexico but throughout Spanish America, rests on achievements in the essay and in poetry. In the field of the essay, he is the author of more than twenty-five books on subjects whose diversity -- esthetics, politics, surrealist art, the Mexican character, cultural anthropology, and Eastern philosophy, to cite only a few -- is dazzling. In poetry, his creativity has increased in vigor over more than fifty years as he has explored the numerous possibilities open to Hispanic poets from many different sources. The bridge that joins the halves of his writing is a concern for language in general and for the poetic process in particular. Toward Octavio Paz defines this process of creation through a close examination of the books that represent the summit of the poet's development, three long poems and three collections. It is intended for readers of varied poetic experience who are approaching Paz's work for the first time. By studying the relationship of the parts of the poem, particularly structure and theme, Fein traces the poet's growth through approaches to the reader, each embodied in a separate work. From the divided circularity of *Piedra de sol* through the intensification of the

subject of *Salamandra*, the multiple meanings of *Blanco*, the polarities of *Ladera este*, and the literary solipsism of *Pasado en claro*, to the silences of *Vuelta*, Paz has shaped his audience's responses to his work through suggestion rather than control. The result is not only a new poetry but a new receptivity.

Octavio Paz, the 1990 Nobel Laureate, has won distinction as an anthropologist, philosopher and critic of art and literature. But it is as a poet that he is most celebrated. *Configurations* was his first major collection to be published in this country, and includes in their entirety *Sun Stone* (1957) and *Blanco* (1967). Paz himself translated many of the poems from the Spanish. Some distinguished contributors to this bilingual edition include, among others, Paul Blackburn, Lysander Kemp, Denise Levertov, and Muriel Rukeyser.

Figures and Figurations New Directions Publishing

Octavio Paz, asserts Eliot Weinberger in his introduction to these *Selected Poems*, is among the last of the modernists "who drew their own maps of the world." For Latin America's foremost living poet, his native Mexico has been the center of a global mandala, a cultural configuration that, in his life and work, he has traced to its furthest reaches: to Spain, as a young Marxist during the Civil War; to San Francisco and New York in the early 1940s; to Paris, as a surrealist, in the postwar years; to India and Japan in 1952, and to the East again as his country's ambassador to India from 1962 to 1968; and to various universities in the United States throughout the 1970s. A great synthesizer, the rich diversity of Paz's thought is shown here in all its astonishing complexity. Among the sixty-seven selections in this volume, a gathering in

English of his most essential poems drawn from nearly fifty years' work, are Muriel Rukeyser's now classic version of "Sun Stone" and new translations by editor Weinberger of "Blanco" and "Maithuna." And since for Paz, forever in motion, there can be no such thing as a "definitive text," all the poems have been revised to conform to the poet's most recent changes in the original Spanish. Besides those by Rukeyser and Weinberger, the translations in the Selected Poems are by G. Aroul, Elizabeth Bishop, Paul Blackburn, Lysander Kemp, Denise Levertov, Mark Strand, Charles Tomlinson, William Carlos Williams, and Monique Fong Wust.

Octavio Paz, the Mythic Dimension New Directions Publishing
"When the sixteen-year-old Octavio Paz (1914-1998) discovered The Waste Land in Spanish translation, it 'opened the doors of modern poetry'. The influence of T S Eliot would accompany Paz throughout his career, defining many of his key poems and pronouncements. Yet Paz's attitude towards his precursor was ambivalent. Boll's study is the first to trace the history of Paz's engagement with Eliot in Latin American and Spanish periodicals of the 1930s and 40s. It reveals the fault lines that run through the work of the dominant figure in recent Mexican letters. By positioning Eliot in a Latin American context, it also offers new

perspectives on one of the capital figures of Anglo-American modernism."

In Light of India New Directions Publishing

In its front-page review of *Alternating Current*, The New York Times Book Review called Octavio Paz "an intellectual literary one-man band" for his ability to write incisively and with dazzling originality about a wide range of subjects. This collection of his essays is divided into three parts. Part 1 sets forth his credo as an artist and poet, steeped in his knowledge of world literature and Mexican art and history and buttressed by readings of writers from Mexican poet Luis Cernuda to D. H. Lawrence, Malcolm Lowry, André Breton, and Carlos Fuentes. Part 2 deals with themes such as Western individualism versus plurality and flux in Eastern philosophy, atheism versus belief, nihilism, liberated man, and versions of paradise. In Part 3, Paz writes of politics and ethics in essays on revolt and revolution, existentialism, Marxism, the third world, and the new face of Latin America. A scintillating thinker and a prescient voice on emerging world culture, Paz reveals himself here as "a man of electrical passions, paradoxical visions, alternating currents of thoughts, and feeling that runs hot but never cold" (Christian Science Monitor).

The Critical Poem Skyhorse

Octavio Paz, 1990 Nobel Prize winner, declares that his many nonfiction books on the subject of India are only footnotes to his India poems. Those collected here cover more than 40 years of Paz's many and various commitments to India as Mexican ambassador, student of Indian philosophy, and, above all, poet. "Paz's poetry is a seismograph of our century's turbulence, a crossroads where East meets West". PUBLISHERS WEEKLY.
