Publisher description

Le avventure di Saffo, poetessa di Mitilene Nabu Press

A detailed up-to-date survey of the most important woman writer from Greco-Roman antiquity. Examines the nature and context of her poetic achievement,

the transmission, loss and rediscovery of her poetry, and the reception of that poetry in cultures far removed from ancient Greece, including Latin America, India, China, and Japan.

At the heart of poetic tradition is a figure of abandonment, a woman forsaken and out of control. She appears in writings ancient and modern, in the East and the West, in high art and popular culture produced by women and by men. What accounts for her perennial fascination? What is her function—in poems and for writers? Lawrence Lipking suggests

many possibilities. In this figure he finds a partial record of women's experience, an instrument for the expression of religious love and yearning, a voice for psychological fears, and, finally, a model for the poet. Abandoned women inspire new ways of reading poems and poetic tradition.

The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics

related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

This pathbreaking study of Italian stage works reconsiders a crucial period of music history: the late eighteenth century through the early nineteenth

century. In her interdisciplinary examination of the statue animated by music, Ellen Lockhart deftly shows how Enlightenment ideas influenced Italian theater and music and vice versa. As Lockhart concludes, the animated statue became a fundamental figure within aesthetic theory and musical practice during the years spanning 1770–1830. *Animation, Plasticity, and Music in Italy, 1770–1830* begins with an exploration of a repertoire of Italian ballets, melodramas, and operas from around 1800, then traces and connects a set of core ideas between science, philosophy, theories of language, itinerant performance traditions, the epistemology of sensing, and music criticism.

This book presents beautiful Victorian-era translations of Sapho's work. In the preface, the author gives his notes on how important was the role of the Greek poet and philosopher on the establishment of modern culture. The book also contains an intro to the biography of Sapho based on her memoirs.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of

revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Western literary study flows out of eighteenth-century works by Alexander Pope, Daniel Defoe, Henry Fielding, Frances Burney, Denis Diderot, Johann Gottfried Herder, Johann Wolfgang von Goethe, and others. How did "voice" become a metaphor for selfhood in the Western imagination? The Lyric Myth of Voice situates the emergence of an ideological connection between voice and subjectivity in late eighteenth-century Italy, where long-standing political anxieties and new notions of cultural enlightenment collided in the mythical figure of the lyric

poet-singer. Ultimately, music and literature together shaped the singing voice into a tool for civilizing modern Italian subjects. Drawing on a range of approaches and frameworks from historical musicology to gender studies, disability studies, anthropology, and literary theory, Jessica Gabriel Peritz shows how this ancient yet modern myth of voice attained interpretable form, flesh, and sound. The publisher gratefully acknowledges the generous support of the AMS 75 PAYS Fund of the American Musicological Society, supported in part by the National Endowment for the Humanities and the Andrew W. Mellon Foundation.
