CHRISTENSEN GAGE

Literary Digest Harvest House Publishers
365 DAYS. TWO WORDS. ONE MIRACULOUS TRUE STORY. One recent December, at age 53, John Kralik found his life at a terrible, frightening low. All aspects of his life seemed to be failing: his relationships with his children and partner, his work, his health. Then, hiking on New Year's Day, John was struck by the thought that his life might become at least tolerable if he could be grateful for what he had. Inspired by a beautiful, simple note he had received thanking him for a Christmas gift, John set himself the goal of writing 365 thank-you notes in the coming

year. One by one, day after day, he handwrote thank yous for gifts or kindnesses he'd received, large and small, from loved ones and coworkers, past business associates and current foes, school friends and doctors and handymen and neighbours, and anyone, really, who'd done him a good turn. Immediately after he'd sent his very first notes, surprising benefits began to come John's way. Over the year John was writing his notes, his whole life turned around. 365 Thank You is a rare memoir, its touching message delivered in the plainspoken storytelling of an ordinary man. Kralik sets a believable, doable example of how to live a good life. To read 365 Thank You is to be changed.

OPEC Bulletin Cambridge University Press

From an innocuous encounter in an airplane, to discourses of the enrichment of the only philosophy his own father handed down to

him, through issues of concern for dereliction of education, to building a wholesome and homogeneous community. He highlights issues through his own journey through life and the numerous recordation of those he had made and shared in a span of close to two decades, blending fun and earnest graveness without being preachy or sanctimonious. Drawing from the Desiderata and his favorite prayer, Good Morning God, he uses an engaging discourse form to deliver the message that our stories, individually and collectively, written or unwritten, is the culminant of the world's story. In this book, he shows that inspiration is not farfetched and that from effecting liveability in our immediate surrounding we can shape our story to effect "points of contact and communication" that will eventually give "the world story, the great Story,a chance to develop."

Adam Silvera reminds us that there's no life without death and no love without loss in this devastating yet uplifting story about two people whose lives change over the course of one unforgettable day. #1 New York Times bestseller * 4 starred reviews * A School Library Journal Best Book of the Year * A Kirkus Best Book of the Year * A Booklist Editors' Choice * A Bustle Best YA Novel * A Paste Magazine Best YA Book * A Book Riot Best Queer Book * A BuzzFeed Best YA Book of the Year * A BookPage Best YA Book of the Year On September 5, a little after midnight, Death-Cast calls Mateo Torrez and Rufus Emeterio to give them some bad news: They're going to die today. Mateo and Rufus are total strangers, but, for different reasons, they're both looking to make a new friend on their End Day. The good news: There's an app for that. It's called the Last Friend, and through it, Rufus and Mateo are about to meet up for one last great adventure—to live a lifetime in a single day. In the tradition of *Before I Fall* and *If I Stay*, *They Both Die at the End* is a tour de force from acclaimed author Adam Silvera, whose debut, *More Happy Than Not*, the New York Times called "profound." Plus don't miss *The First to Die at the End*: #1 New York Times bestselling author Adam Silvera returns to the universe of international phenomenon *They Both Die at the End* in this prequel. New star-crossed lovers are put to the test on the first day of Death-Cast's fateful calls.

The #1 international best seller In *Lean In*, Sheryl Sandberg

reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.

Cameroon stands as a remarkable example of nation-building in the aftermath of European domination. Split between the French and British empires after World War I, it experienced a unique drive for self-determination at the turn of the 1960s, culminating in both independence from European power and the re-unification of two of its divided territories. This book investigates the influence of foreign policy on nation-building in West Africa in the context of both the Cold War and European integration. Shedding fresh light on the challenges of bridging the political, economic

and linguistic divide that France and Britain had left, Melanie Torrent explores the evolution of a nation, charting both Cameroon's importance in Franco-British relations and Cameroon's use of bilateral and multilateral diplomacy in asserting its independence. This work should be essential reading for students of African studies, International Relations and the post-colonial world.

They Both Die at the End Trafford Publishing

Are you or a friend in the midst of life challenges or changes? Let the inspirational thoughts in this warm and inviting little book serve as an encouraging reminder of God's presence and promises when facing heartache, transition, or a season of uncertainty. With each turn of the page, kind words and a graceful interior overflow with faith, love, and joy as God's assurances shed light on the path ahead. "I Know the Plans I Have for You," Says the Lord is a keepsake-worthy expression of comfort and hope that will become dear to you or your friend for years to come.

Risk and Hyperconnectivity brings the paradigms of new risk theory, neoliberalization they, and connectivity theory together

for the first time to illuminate how the kaleidoscope of risk events in the opening years of the new century has recharged a neoliberal battlespace of media, economy, and security. Probing a series of risk events that have already contoured the twenty-first century, this account shows how both established and emergent media are central in shaping past, present and future horizons of neoliberalism, while also propelling pressure for its alternatives.

Indonesia News Service HarperCollins

This book argues that conflicts over slavery and abolition in the early American Republic generated a mode of constitutional interpretation that remains powerful today: the belief that the historical spirit of founding holds authority over the current moment. Simon J. Gilhooley traces how debates around the existence of slavery in the District of Columbia gave rise to the articulation of this constitutional interpretation, which constrained the radical potential of the constitutional text. To reconstruct the origins of this interpretation, Gilhooley draws on rich sources that include historical newspapers, pamphlets, and congressional debates. Examining free black activism in the North, Abolitionism in the 1830s, and the evolution of pro-slavery thought, this book shows how in navigating the existence of slavery in the District and the fundamental constitutional issue of the enslaved's personhood, Antebellum opponents of abolition came to promote an enduring but constraining constitutional imaginary.

The Electrical Journal Routledge

A groundbreaking new history of how the Vietnam War thwarted U.S. liberal ambitions in the developing world and at home in the

1960s At the start of the 1960s, John F. Kennedy and other American liberals expressed boundless optimism about the ability of the United States to promote democracy and development in Asia, Africa, the Middle East, and Latin America. With U.S. power, resources, and expertise, almost anything seemed possible in the countries of the Cold War's "Third World"—developing, postcolonial nations unaligned with the United States or Soviet Union. Yet by the end of the decade, this vision lay in ruins. What happened? In *The End of Ambition*, Mark Atwood Lawrence offers a groundbreaking new history of America's most consequential decade. He reveals how the Vietnam War, combined with dizzying social and political changes in the United States, led to a collapse of American liberal ambition in the Third World—and how this transformation was connected to shrinking aspirations back home in America. By the middle and late 1960s, democracy had given way to dictatorship in many Third World countries, while poverty and inequality remained pervasive. As America's costly war in Vietnam dragged on and as the Kennedy years gave way to the administrations of Lyndon B. Johnson and Richard M. Nixon, America became increasingly risk averse and embraced a new policy of promoting mere stability in the Third World. Paying special attention to the U.S. relationships with Brazil, India, Iran, Indonesia, and southern Africa, *The End of Ambition* tells the story of this momentous change and of how international and U.S. events intertwined. The result is an original new perspective on a war that continues to haunt U.S. foreign policy today.

Two centuries before the daring exploits of Navy SEALs and Marine Raiders captured the public imagination, the U.S. Navy

and Marine Corps were already engaged in similarly perilous missions: raiding pirate camps, attacking enemy ships in the dark of night, and striking enemy facilities and resources on shore. Even John Paul Jones, father of the American navy, saw such irregular operations as critical to naval warfare. With Jones's own experience as a starting point, Benjamin Armstrong sets out to take irregular naval warfare out of the shadow of the blue-water battles that dominate naval history. This book, the first historical study of its kind, makes a compelling case for raiding and irregular naval warfare as key elements in the story of American sea power. Beginning with the Continental Navy, *Small Boats and Daring Men* traces maritime missions through the wars of the early republic, from the coast of modern-day Libya to the rivers and inlets of the Chesapeake Bay. At the same time, Armstrong examines the era's conflicts with nonstate enemies and threats to American peacetime interests along Pacific and Caribbean shores. Armstrong brings a uniquely informed perspective to his subject; and his work—with reference to original naval operational reports, sailors' memoirs and diaries, and officers' correspondence—is at once an exciting narrative of danger and combat at sea and a thoroughgoing analysis of how these events fit into concepts of American sea power. Offering a critical new look at the naval history of the Early American era, this book also raises fundamental questions for naval strategy in the twenty-first century.

In 2002, East Timor became an independent state following a long conflict with Indonesia, and went on to adopt a semi-presidential form of government. In a semi-presidential system

there is a directly elected fixed-term president, prime minister and government who are collectively responsible for the legislature. Over 50 countries in the world have adopted such a system. This book examines the politics of semi-presidentialism in East Timor from 2002-2012 and post-2012 political developments. It analyses the impact of semi-presidentialism on the performance of East Timor's democracy, and looks at whether semi-presidentialism encourages power sharing between competing forces, or whether it provoke a power struggle that threatens democratic stability. Using East Timor as a case study, the author explains whether the adoption of semi-presidentialism helps or hinders the process of democratisation in new democracies. It is of interest to researchers in the fields of

Political Science, Conflict Resolution and Asian Studies, in particular Southeast Asian Politics.

The W.B.A. Review

Having survived cruel storms that threatened to destroy her, the oak tree "grows deeper" in the face of misfortune. She learns how to ask for help, to reroot, to reach out and risk to embrace life once again. Powerfully illustrated, this book is a source of hope and comfort for those striving to grow through the unfair seasons of their lives.
