The value of advertising has always been an effective way to increase consumerism among customers. Through the use of emotional branding, companies and organizations can now target new and old patrons while building a strong relationship with them at the same time, to ensure future sales.

Driving Customer Appeal
Through the Use of

Emotional Branding is a critical scholarly resource that examines the responses consumers have to differing advertising strategies, and how these reactions impact sales. Featuring relevant topics such as multisensory experiences, customer experience management, brand hate, and product innovation, this publication is ideal for CEOs, business managers, academicians, students, and researchers that are interested in discovering more effective and efficient methods for driving business.

In this exciting new book, experienced author, professor, and teacher Gregory J. Privitera—2013 Advisor of the Year at St. Bonaventure University

and recipient of the SBU Award for Professional Excellence in teaching in 2014—draws on his extensive expertise to give students a step-by-step plan for success in preparing for and applying to graduate school. Broad in scope and rich in detail, *Getting Into Graduate School* includes insights into how graduate school selection committees decide on candidates, a concrete freshman-to-senior-year plan, and samples of application materials, resumes, and cover letters. This empowering book provides everything students in psychology and the behavioral sciences need to map their course to academic and professional success. “Privitera helps students to keep their eye on a goal and a prize from day

one of college, and he helps them to understand that long-term thinking can enhance all areas of life.” —Ramani Durvasula, California State University, Los Angeles

“The single most impressive aspect...is the concrete plan outlined for how students can plan for applying to graduate school, as early as their freshman year.” —Stacy Bender, Alfred University

Intellectual Freedom Issues in School

Libraries Enslow Publishing, LLC
Collecting several key documents and policy statements, this supplement to the ninth edition of the Intellectual Freedom Manual traces a history of ALA’s commitment to fighting censorship. An introductory essay by Judith Krug and Candace Morgan, updated by OIF Director Barbara Jones, sketches out an overview of ALA policy on intellectual freedom. An important resource, this volume includes documents which discuss such foundational issues as The Library Bill of Rights Protecting the freedom to read ALA’s Code of Ethics How to respond to challenges and concerns about library resources Minors and

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule’s purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where

discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Guns, Germs, and Steel: The Fates of Human Societies

Indiana University Press
No reform effort in American higher education in the last twenty years has been more important than the attempt to enlarge the dominant understanding of the scholarly work of faculty—what counts as scholarship. Faculty Priorities Reconsidered assesses the impact of this widespread initiative to realign the priorities of the American professoriate with the essential missions of the nation’s colleges and universities: to redefine faculty roles and restructure reward systems. Faculty Priorities Reconsidered traces the history of the movement to redefine scholarship. It examines the impact of the 1990 landmark report *Scholarship Reconsidered: Priorities of the Professoriate* from The Carnegie Foundation for the Advancement of Teaching, and the decade-long work of the American Association for Higher Education’s Forum

on Faculty Roles and Rewards that initiated and sustained much of the work reported on here. The struggles to move beyond narrow definitions of research, to distinguish between scholarly teaching and the scholarship of teaching while acknowledging the importance of both, to encourage faculty engagement in meeting the scholarly needs of the larger civic community, and to recognize the importance of academic synthesis and integration—all elements of a broader understanding of scholarship—are addressed in this book. In *Faculty Priorities Reconsidered* the leading pioneers of the movement reflect on their own work with campuses nationwide and examine concrete issues involved in introducing new perspectives on the different forms of scholarship. In addition, the book contains studies of nine very diverse institutions—Madonna, Albany State, South Dakota State, Kansas State, Portland State, and Arizona State universities, Franklin College, the University of Phoenix, and the University of Colorado School of Medicine. Each

study tells a unique story of the struggle to change faculty work and its rewards. This book offers practical advice to academic leaders considering similar changes and responds to questions for the future about encouraging, supporting, assessing, and rewarding multiple forms of scholarship.  Shifting faculty roles in a changing landscape
 Ernest L. Boyer's landmark book *Scholarship Reconsidered: Priorities of the Professoriate* challenged the publish-or-perish status quo that dominated the academic landscape for generations. His powerful and enduring argument for a new approach to faculty roles and rewards continues to play a significant part of the national conversation on scholarship in the academy. Though steeped in tradition, the role of faculty in the academic world has shifted significantly in recent decades. The rise of the non-tenure-track class of professors is well documented. If the historic rule of promotion and tenure is waning, what role can scholarship play in a fragmented,

unbundled academy? Boyer offers a still much-needed approach. He calls for a broadened view of scholarship, audaciously refocusing its gaze from the tenure file and to a wider community. This expanded edition offers, in addition to the original text, a critical introduction that explores the impact of Boyer's views, a call to action for applying Boyer's message to the changing nature of faculty work, and a discussion guide to help readers start a new conversation about how *Scholarship Reconsidered* applies today.

Every year thousands of parents in England and Wales are not offered a place at their preferred school for their child.

These parents can appeal to an Independent Appeal Panel who can overturn the decision and send their child to the school they so desperately want to go to. This is a down to earth guide for parents appealing against the decision not to offer them a place at their preferred school. This book will explain how the decision was made, look at what you can do straight away, how to write your appeal, what to say on the day of the appeal and finally what to do after the appeal.

College financial aid is not like negotiating with a car dealership, where bluff and bluster will get you a bigger, better deal.

Appealing for more financial aid depends on presenting the college financial aid office with adequate documentation of special circumstances that affect the family's ability to pay for college. This book provides a guide for students and their families on how to

appeal for more financial aid for college and how to improve the likelihood of a successful appeal. This book also discusses techniques for increasing eligibility for need-based financial aid and merit aid. The topics covered by this book include corrections, updates, special circumstances, writing an effective financial aid appeal letter, adequate documentation, professional judgment adjustments, unusual circumstances, dependency overrides and the differences between the FAFSA and CSS Profile forms.

Getting Into Graduate School University of Notre Dame Press

This volume of collected articles from the archives of School Library Connection provides school librarians and LIS professors with a one-stop source of information for supporting the core library principle of intellectual freedom.

School librarians continue to advocate and champion for student privacy and the right to read and have unfettered access to needed information. Updated and current information concerning these issues is critical to school librarians working daily with students, parents, and faculty to manage library programs, services, and print and digital collections. This volume is an invaluable resource as school librarians revisit collection development, scheduling, access and other policies. Library Science professors will find this updated volume useful for information and discussion with students. Drawing on the archives of School Library Connection, Library Media Connection, and School Library Monthly magazines—and with comprehensive updates throughout—chapters tackle privacy, the right to read, censorship, equal access to information, and other intellectual freedom issues. New laws and legal and ethical opinions continue to appear and help inform the daily response school librarians have to current issues. This volume updates all included articles with current legal thought and

opinion. Intellectual freedom expert April Dawkins, PhD and editor, offers practical advice and commentary throughout. Includes up-to-date coverage of a wide range of intellectual freedom topics Looks at current and applicable laws Features important topics for discussion in LIS classes Immediately usable in schools, and for school district staff development on these important and relevant topics

The Intellectual Appeal of Catholicism & the Idea of a Catholic University

Independently Published

Today, it may seem like the college admissions process has become more inflated and difficult to navigate than ever before. Many parents have become vocal about the standardized testing and college preparation that begins as early as elementary school. In fact, some families hire advisors to help their children chart a path to the most prestigious schools when they are barely teenagers. This text examines the historical college admissions process and where we are today through the thoughtful

analysis of researchers, politicians, officials, and ordinary people in order to show students all sides of this often high-stress topic.

 "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war -- and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based

theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal. *Critical Perspectives on the College Admissions Process*
 "A deeply thoughtful articulation of an enduring and appealing ideal. It is an ideal with a resonance beyond the world of Catholic higher education for all in the academy who still respond to the beckoning vision of the ultimate unity of all human knowing and who view it, indeed, as a necessary inspiration if we are to succeed in according to our intellectual activities the sort of seriousness and moral significance they properly deserve." -- Francis Oakley, President Emeritus, Williams College
 "There is a real need, indeed an absolute necessity, for a Catholic university that is true to its religious values. By so

being, it makes other, non-Catholic institutions that much better." --E. Gordon Gee, Chancellor, Vanderbilt University
 "Dean Roche has done a rare thing. He has articulated a sharp and clear Catholic theology of Christian higher education. What has been implicit in the practice of great Catholic universities has now been made explicit in this fine essay." --Robert Benne, author of *Quality with Soul: How Six Premier Colleges and Universities Keep Faith with Their Religious Traditions* "Catholic identity will mean nothing in the world of higher education if it lacks a genuine intellectual dimension. Mark Roche understands that fundamental fact, tackles the problem directly, and deals with it cogently." -- Philip Gleason, author of *Contending with Modernity: Catholic Higher Education in the Twentieth Century*
